### MR. JUSTICE WHITE.

president Cleveland Nominates Lousiana's Senior Senator.

A GOOD DEMOCRAT NAMED THIS TIME.

No Hornblower or Peckham Delay by the Senate in This Instance.

MONFIRMED DURING THE AFTERNOON

Able Southern Lawyer, Formerly Member of the Supreme Bench of His State, Gets the Plum.

Washington, February 19 .- (Special )-The lent has at last settled the supreme nt matter. He nominated Senttor E. p. White, of Louislana, for the vacancy tomy and the senate immediately went into secutive session and confirmed him by

Snator White himself knew nothing of the fact that the president was considering his name until yesterday evening when the esident sent for the Louislana senator. Mr. White called, accompanied by Mr. Caffery, at 8 o'clock and remained in conence with the president for more than two hours. The president for the first time rmed Mr. White of his intention, saying that he believed he had all of the qualitestions for a member of so distinguished a court and asked the senator if he would accept the place. The proffer came so sud-dealy and carried with it such a change in Mr. White's personal plans that he asked for time to consider, agreeing to give a positive answer today,
Mr. White, accompanied by his colleague,

again called at the executive mansion this rorning at 9:30 o'clock and as he crossed the threshold was still undetermined. An hour's talk with Mr. Cleveland, however, ecided Mr. White and at 10:30 o'clock, said that he would accept the nomion, Mr. White left the mansion. He ation, Mr. White left the and and not go to the capitol, but returned to is rooms, Mr. Caffery proceeding to the

The bulletin for distribution to the press ciations and correspondents that usualaccompanies the president's nominations the senate, was missing today, and it as ten minutes after the fact that the newspaper men learned of the nomination. The president could not have selected a stronger man or one who would give more atisfaction to all sections of the country. He went as far away from New York as it was possible to go. Senator White will assume his duties on the supreme bench mmediately. This will, of course, necessite his immediate resignation from the mate and that will open a contest for his sccessor in Louisiana. Governor Foster acently appointed his colleague, Senator agery. Now the governor will have to mik another appointment, for the legislaire does not meet until next fall. The

overnor will make the appointment at once, for Louisiana needs both her votes on the tariff bill. Representative Banchard, of that state, is prominently spoken of, and he may be appointed by the governor. he may be appointed by the governor.

The only difficulty in the way seems to
be his vote on the Wilson bill. He voted or that bill while four of his colleagues roted against it on account of the sugar

schedule. Whether his vote will affect

his chances or not, remains to be seen.

Within an hour from the time the nomi-mation was sent in Mr. White had been confirmed and the president notified. As soon as the doors were closed Mr. Pugh called up the nomination and asked that it be immediately considered. This was agreed to. He spoke highly of the momination and said that it was a happy solution to the trouble. The fourth judicial direuit, consisting of the states of Maryland, Virginia, West Virginia, North Caroina and South Carolina, and the fifth circuit, composed of the states of Georgia. Florida, Alabama, Mississippi, Louisiana and Texts, made eleven states of the union that had no justice of the supreme court, while the small circuit composed of the states of Ohio, Michigan, Kentucky and ee had three judges-Harlan, Brown

believed this southern circuit was eff-He believed this southern circuit was eff-titled to it, but was glad the president had selected Mr. White. Mr. Pugh moved that the nomination be confirmed. Mr. Hoar seconded the nomination, and speaking again later on said he was pleased to see that young blood was to be infused into the supreme court. He disliked the idea of nominating ois

men, who could not give the country, by reason of old age and physical infirmity. the full benefit of their services. Of Arr. White's legal ability he had the highest regard and was glad the president had made a selection upon which the senate could agree.

Mr. Teller, republican, of Colorado, con-cured in what Mr. Hoar had said, and then proceeded to enunciate the principle that action with nominations independent of the acts of the president. The fact that the resident had made a nomination carried but little weight; the senate was called upon to act as it thought best, independent of the wishes of the executive. the senate was charged with a duty in con-

Mr. Hill Endorses Him. In view of Mr. Hill's attitude in regard the two nominations that failed of con-

to the two nominations that failed of confirmation, what he said today became interesting. He spoke in full as follows:

Trise for the purpose of seconding the motion of the distinguished chairman of the fudiciary committee. Representing, as I do, in part, the circuit in which the vacancy exists, caused by the death of the late lamented Judge Blatchford, and to fill which the nomination just reported has been presented to this body for its consideration, a few suggestions on my part at this time may not be inappropriate.

"Permit me to remark at the outset that

may not be inappropriate.

"Permit me to remark at the outset that this nomination, from a personal point of view, is entirely unobjectional. The nomine is able, experienced and satisfactory. He is personally offensive to no one. He has not bern involved in any factional dissensions and he possesses the confidence of the democratic party of his state, to which he is proud to belong. He has not antaging, and every senator around this civile knows and respects him. He is not without radicial experience, having, for two years, creditably served upon the bench of the supreme court of Louisiana, and his selection will prove acceptable to the United States and to the people.

while it is true that Judge White's selection is most admirable and one in which I most cheerfully acquiesce, it is perhaps equally true that the people of New York, in their local pride, will regret that the president did not see fit to make a satisfactory appointment from the hundreds of competent lawyers and distinguished jurists at Wa that great state whose nomination would are provoked no opposition whatever, and I stave Taken a New Yorker.

who would have adorned and honored the highest court in the land. It may be asserted as a fact that almost any one of the present federal judges there residing would have been acceptable to the senate, had the president in his wisdom seen fit to honor any one of them by a nomination. There was no dispute upon this point, but the president's choice, in his opinion, seemed to have been limited to a select few, for reasons best known to himself. I do not propose on this occasion to add a single unpleasant remark to the unfortunate contest which has mark to the unfortunate contest which has occupied our attention for the past six weeks over the two nominations which the majority of the senate regarded as unsuitable and objectionable.
"I do not retract a single word which I

urged in successful opposition to their cor firmation. These contests have passed into history—there let them be judged. Had No Candidates Themselves.

"I believe that the state of New York was entitled to the judgeship, and had the sena-tors from that state been consulted, as they properly should have been, and as courtesy and usage required, a satisfactory selection from the numerous eminent members of the bar of my state could have easily been made. You will know that the senators from New York had no candidates of their own. Their action was not influenced by disappointment. They pressed no favorites of theirs upon the attention of the appointing power, but whatever action they took was impelled by their self-respect, and their loyalty to the people's interest, which they represented, and to the regular democratic organization to which they belonged. The president, in the exercise of sole discretion, which the constitution vests in him has seen if to go outside of New York and outside of the circuit where the vacancy occurred, and has honored the senate by the appointment of one of its distinguished members from the far distant state of Louisiana and, while this action may perhaps justly be regarded as a slight to New York and to our circuit, or a refiscion upon its distinguished indicions, any member of from the numerous eminent members of the justly be regarded as a slight to New York and to our circuit, or a reflection upon its distinguished judiciary, any member of which would have adorned the tighest federal court, yet we may congrataliate ourselves that so admirable a selection has been made, and reflect that after all the question of locality or residence is a matter of little consequence compared with the other considerations involved in the cancer for so exalted a station.

Hill Perfectly Satisfied. "I am entirely satisfied with the present atcome. It is with plays the therefore, that I express my desire that this nomina-

tion should be confirmed at once."

Mr. Caffery concluded the speeches with Mr. Carrery concluded the specifics with a brief tribute to the worth of his colleague and expressed the pride his state would take in the selection made by the president.
The vote was then taken and Mr. White was confirmed without a dissenting voice.

What the New Yorkers Say. The nomination of Senator White was a great surprise to members of the house, but was favorably commented on by every one. The members from New York did not enter into any lengthy expression of opinion, but Messrs. Cockran, Strauss and Tracey agreed that New York had got out of it al. she was

entitled to.

Mr. Cummings expressed his gratification over the appointment, saying that Senator White's nomination was an exceedingly good one. "There is nothing sectional about an appointment to the supreme bench," he

Southern members were paracularly well pleased with the choice, and exchanged congratulations with one another. There was immediate speculation, of course, as to the identity of the gentleman to be selected in Mr. White's place as a member of the sen-

A Lawyer of Ability. All sorts of rumors were affeat during the morning relative to this appointment. The names of Senators Gray and Faulkner were mentioned, but not that of the Louis'are senator. Mr. White did not come to the senate today. He is a lawyer of marked ability in the full vigor of hie, and will bring to the supreme court a valuable knowledge of the latricacles of practice under the civil code, or ode Navelson as knowledge of the latricacles of practice under the civil code, or code Napoleon as it prevails in the Louisiana courts, which will be of great service in disposing of cases arising in the courts of that state.

Edward Douglas White was born in the parish of LaFourche, La., in November, 1845, and was educated at Mount St. Mary's

college, at the Jesuit college in New Or-leans, and at Georgetown college, this city. He served in the confederate army, and after the close of the war, in 1868, was licensed to practice law by the surveme court of Louisiana. In 1874 he was elected a state senator and was appointed four years later associate justice of the supreme court of Louisiana. He was elected to the senate to succeed James B. Eustis, and took his seat March 4, 1891. His term does not expire until March 2, 1897.

not expire until March 3, 1897. E. W. B. LOOKS LIKE BLANCHARD. Governor Foster Says It Will Take Him

Some Time to Appoint. New Orleans, Ls., February 19.—(Special.) The appointment of Senator White to the United States supreme court will create a vacancy in the senate, which will have to be filled by Governor Foster. The other senator from Louisiana. Donalson Caffery, was also appointed by Governor Foster, so that both the Louisiana senators will be appointed, not elected. The legislature, appointed, not elected. The legislature, which meets in May, will have the wacancles to fill. It was generally inderstood that Senator White would succe? I himself. Senator Caffery's principal competitors were ex-Senator Jonas and Congressman N. C. Blanchard. The retirement of Senator White has made them candidates at once, with chances in favor of Blanchard. The governor and both the present senators are from south Louisiana, from the sugar district and there is a strong teeling that north Louisiana, the cotten district, is entitled to the vacancy. Governor Foster was asked today to make up his mind in as short time as possible, so as to allow the new appointee to vote on the tariff question. He said it would require some little time for consideration, but the interests of the state would not be neglected. It is the opinion of those close to the administration that Mr. Blanchard will be the nominee, certainly some man from north Louisiana, but one who will take up the views of Senator White on the sugar question and carry them out. Ex-Congressman Wilkinson, now collector of customs, was also suggested for the senatorship to the governor, but the chances are against his appointment. All the candidates have laid their cases before the governor. The latter will come to New Orleans tomorrow to consult with some friends on the question. appointed, not elected. ### SPLIT IN THE PARTY.

Eastern Democrats Bolt and Go to Tom Reed's Banner.

THHEY WALK OUT OF THE CAUCUS Thirty of Them Refuse to Vote for

Bank Tax Repeal. REPUBLICANS ARE LAUGHING AT IT

Southern and Western Men Are Mad-The Leaders See the Country Is Dis-gusted and Begin to Act.

Washington, February 19 .- (Special.)-The condition of affairs in the house has become very serious. The democratic party is divided. The eastern wing of the party has split off entirely from the south and west on the silver seigniorage bill. The eastern democrats are acting with the republicans. Today another effort was made to reach an agreement as to when the silver seigniorage bill should be voted on. The republicans and eastern democrats abstained from voting and prevented a quorum on any roll call. In consequence the house could do nothing and adjourned without action. There were twenty-seven of these eastern democrats present, who acted with the republicans in refusing to vote. These men all hall from the states of New York, New Jersey, Maryland, Connecticut, Massachusetts and Pennsylvania. They were led by Bourke Cockran and Tracey, of New York. These twenty-seven added to all the republicans except nine, refusing to vote, simply broke a quorum. The names of these men who are combining with the republicans to prevent a democratic congress being able to act are: Bartlett, Campbell, Causey, Cockran, Coombs, Cornish, Covert, Cummings, Deforest, Dunn, Dunphy, English, Erdman, Everett, Gelssenhainer, Johnson, Lapham, O'Neill, Page, Rayner, Scher-

merhorn, Sperry, Stevens, Strauss, Tracey, Warner and Wolverton. When the house adjourned a democratic caucus was immediately cailed. All the southern and western men remained in caucus and by concerted action these twenty-seven eastern democrats named above walked out of the caucus and refused to take any part in its acts or to abide by its results. By their act they refused to take any part in party organization. Their only excuse in refusing to act with 160 of their democratic colleagues is that the president and the administration are opposed to the bill under consideration.

They were roundly abused by their colleagues who remained in the caucus. Some of the western men declared that they were not democrats anyhow. Mr. Hatch says they are like children; if they cannot have their own way they refuse to play.

At the caucus there were about 130 democrats present. Mr. Bland introduced a resolution that every democrat should be present and cast his vote. There were several speeches in favor of this resolution and criticising the eastern democrats who were acting with the republicans. Bolters Criticized.

Mr. Springer pointed to the fact that dur-ing the contest for the repeal of the silver purchasing clause of the Sherman act, all democrats opposed to That measure had promptly responded upon every roll call; had furnished the necessary quorum and had contented themselves with speaking and recording their votes.

Mr. Boatner, of Louislana, then took the floor with a resolution which was so radical that it was at once voted down and funish-

that it was at once voted down and funished an excuse for a motion to adjourn, that was immediately carried.

The Boatner resolution instructed the committee on rules to bring in an order imposing special penalties for failure to vote to make a quorum and for absenteeism. It was quickly disposed of by a vote of 61 to 42, after which, upon motion of Mr. Richardson, the caucus adjourned.

Mr. Springer appealed to the constitu-

to 42, after which, upon motion of Mr. Richardson, the caucus adjourned.

Mr. Springer appealed to the constituents of absent members to urge their members by telegraph and letters to appear in the house and vote on all cuestions. He had never known an occasion before when any number of democrats refused to come to a democratic caucus and to take cousel with their democratic brothers. He regreted this, not only on account of the pending legislation, but on account of the divisions and dissentions which would be engendered in every congressional district in the land and make future success impossible. The breaking of a quorum by members of the majority ought not to be resorted to. It was a parliamentary revolution and would destroy the power of the party in the majority to legislate.

When Mr. Springer had concluded, Mr. Bynum, of Indiana, in a brief speech, offered a resolution fixing the failure to make a quoram upon the republicans. He offered this resolution as an amendment to the Bland resolution, which was still before the caucus.

Instantly the hall was filled with murmurs

Instantly the hall was filled with murmars Instantly the hall was filled with murmurs of dissent, and the Bynum amendment was at once voted down by a large majority, the explanation being that the democrats were responsible for the breaking of the quorum, as they were the party in power and it was their business to see that a quorum was present. After Mr. Williams, of Mississippi, had spoken briefly in favor of the Bland resolution, a vote was taken and it was adopted unaniquately. Thereupon, Mr. Bland offered another resolution, which was as follows: "Resolved, That it is the sense of this caucus that the pendir ghill shall be the special order of business of the house to the exclusion of all other business until finally disposed of."

There was no objection and the resolution was adopted.

The bolters, however, cannot delay

The bolters, however, cannot delay matters long. There are thirty-two democrats absent from the city on account of sickness and other causes. Sergeants-at-arms have been sent to bring them here and by Wednesday at the latest a quorum of democrats who will yoke is expected. and by Wednesday at the latest a quorum of democrats, who will vote, is expected. Then the bill will pass. Nine republicans and nine populists voted with the democrats today and will continue to vote with them. They are all for free coinage. Tom Reed Is, however, controlling the remainder of the democratic party and is naturally in high files because he is causing discord and division among the democrats.

The Spenker Will See to It.

There will certainly be a vote upon the 10 per cent state bank tax repeal in the house. The speaker and the committee on rules will see to that.

will see to that.

will see to that.

And, by the way, Speaker Crisp seems to have been criticised in some quarters for not making up the banking and currency committee with a majority in favor of the unconditional repeal of the bank tax. The speaker did make up the committee with what he believed, and every one believed, to be a majority in favor of repealing this tax. Mr. Warner, of New York, was put on the committee upon his public statement on the floor of the house that he was in favor of repealing this tax. When the yote

was taken in committee on unconditional repeal, he voted against it. He, however, still holds that he is for repeal, but for conditional repeal. In appointing committees the speaker has but the words of mem-

bers to rely upon as to their positions.

However, this has but little to do with it, for a vote is to be held in the house, and full time is to be given for debate. E. W. B.

A Rule Suggested Which Would Get Action if Adopted. Washington, Februar, 19.-Mr. DeArmond offered the following resolution in the house at the opening of business today:

PROPOSES TO FINE THEM.

"Resolved. That to paragraph 1, of rule 15, be added a clause as follows: 'But it shall be in order at the conclusion of the second roll call for any member to inquire of the speaker if a quorum has voted and, second roll call for any member to inquire of the speaker if a quorum has voted and, if the speaker answers in the negative, to suggest that if any other member, naming him, is present, and has not voted, thereupon the speaker may cause the doors to be closed, and shall direct the clerk again to call the name of such member and record his vote; and this proceeding may be continued until a quorum shall be voted. And if any member, being thus called a third time and being present and not excused from voting shall not vote, the sergeant-at-arms shall, by direction of the speaker, bring him before the bar of the house and his name shall then be called once more and his vote recorded as that of a member present and refusing to vote, and for every contempt of the house of which a member shall her guilty by thus refusing to vote the sergeant-at-arms shall deduct as a fine the sum of \$50 from his salary, pay the same into the treasury of the United States and report such action to the house."

Mr. Hopkins: "There seems to be so much machinery about that, that I think it would be better to authorize the speakers are not to the sergeant and and the same into the process."

Mr. Hopkins: "There seems to be so much machinery about that, that I think it would be better to authorize the speaker at once to count a quorum."

Mr. Reed: "Or have a justice of the peace appointed to administer the house."

The resolution was referred to the committee on rules.

The resolution was referred to the committee on rules.

Mr. Bland called up his bill to coin the seigniorage of the treasury silver bullion. He moved that the house resolve isself into a committee of the whole and that general debate be limited to thirty minutes. A division showed 105 votes in fayor of

general debate be limited to thirty minutes. A division showed 105 votes in favor of the motion and none in the negative.

Mr. Tracey suggested no quorum, whereupon Mr. Bland demanded the yeas and nays and at 12:30 o'clock the cali was begun and resulted—yeas 151, nays 4.

No quorum appearing Mr. Bland moved a call of the house, which was ordered. Messrs. Baker, Bell, Boen, Davis, Kem, Newland and Simpson, popul'sts, and Isowers, Broderick, Doolittle, Ellis, maine, Hartman, Hermann, Lucas, Marsh and Pickler voted with the democrats in favor of Mr. Bland's motion.

The negative vote was made up by Messrs. Hepburn and Ray, republicans, and Page and Piggott, democrats.

this call, but the gain was more than offset by the failure of the democrats and populists to vote.

The third roll call resulted—yeas 152, nays and Mr. Bland asked a call of the house. This was agreed to—73 to 31.

At the close of the call, to which 241 members responded, Mr. Bland offered a resolution revoking all leaves of absence and instructing the sergeant-at-arms to arrest absent members, the resolution to continue in force after adjournment and until the further order of the house.

Mr. Tracey moved that the house adjourn. On this resolution the republicans and anti-sliver democrats voted in the affirmative; the silver democrats and populists joined the bulk of the democrats in the negative. On division the vote was announced—yeas 74, nays 106.

The yeas and nays were ordered.

After some further filibustering Mr. Bland's last resolution revoking leaves of absence was agreed to—yeas 106, nays 0. The resolution was one that did not require a quorum.

Mr. Reed endeavored to convince the chair

Mr. Reed endeavored to convince the chair that his ruling to this latter effect was erroneous, but the chair (Mr. Dockery, of Missouri,) stated that it was very clear to him, and in accordance with the uniform practice of the house, that while the house was proceeding under a call motions and resolutions could be passed by the vote of less than a quorum. This point, he said, had been expressly ruled upon by Speaker Carlisle in the first session of the fiftieth congress.

Kell, revoking the order consolidating the Savannah Volunteer Guards with the First Georgia infantry regiment.

Nashville, Tenn., February 19 .- (Special.)-The board of public works has concluded an investigation of a charge that J. J. Anderson, of Nashville, had attempted to secure \$3,000 from a St. Louis firm on the ground that he could control the votes of two members of the board in awarding a sprinkling contract. Freeman Wright makes a sworn statement to the effect that Anderson, in a conversation with P. A. O'Connell, declared that he could control Messrs. Kennedy and Kercheval for \$1,000 each, and wanted \$1,000 for himself. Later Anderson said only Kennedy could be controlled and he wanted one thousand each for himself and Kennedy. He had never intimated that he could influence or control Mr. Kennedy's vote. Messrs. Kennedy and Kercheval both make sworn statements that they had never been approached by Mr. Anderson in reference to the contract. The board wired O'Connell and Wright, and also H. C. Pollman, all of St. Louis, to be here this morning to appear before the board, but none of them came. Pollman has the contract for this year and Anderson is on his bond. The Supreme Court Has No Jurisdic-tion in the Purvis Case. Jackson, Miss., February 19.—(Special.)— The supreme court has denied the motion of the attorney general to resentence Will Purvis the whitecap, who escaped the death noose by the bungling job of Sheriff Magee in Marion county. The supreme court stat-ed that it had nothing whatever to do with the case, and that it was a matter for the circuit court. Purvis cannot be resentenced until the June term of the circuit court at Columbia unless Judge Terrell shall sooner call a special term of court for that pur-

pose.
The impression grows stronger every day that while Will Purvis was present when Buckley was assassinated, his father, lke Purvis, did the killing, and that the white-caps cast lots as to who should do the Loody work. It is reported that Wil! Purvis has made a fuller confession than has been published and that a great many more people are implicated as whitecaps in Marion county than the public had supposed. Jackson, Tenn., February 19.—(Special.)— The federal court for the western district of Tennessee convened this morning, Judge E. S. Hammond presiding. This is a special E. S. Hammond presiding. This is a special term of the court to try the case of the United States against Brockway, Healy, Smith and Gleason, the four young men held here under the charge of perjury in the recent, celebrated trial of G. F. B. Howard, of claims agency fame. There is but little doubt that the quartet will go to the penitentiary, as each one has made a confession, acknowledging perjury and showing how Howard induced them to come from New York to Jackson and swear for him. The charge of Judge Hammond to the grand jury this afternoon makes the return of Howard to Jackson to answer the charge of bribing witnesses almost inevitable. Several New York witnesses in the case and one from Australia arrived today.

One Victim of the Riot Dies.

Columbus, Ga., February 19.—(Special.)—
Frank Crabtiet, alyoung white man of Lee county, Alabama, who, about Christmas,

was wounded in a race riot near Tampa, Fla., died in Phenix City today. Crabtree received several dangerous wounds ourning the conflict. He was brought to Phenix City and placed in charge or pnysicians, and until a day or two ago it was thought that he would survive his injuries. In the above named riot a number of negroes were killed but Crabtree is the only white participant whose wounds proved fatal.

SKELTONS GIVE BOND. The Four Brothers Who Killed Ross Are Released.

Chattanooga, Tenn., February 19.—(Special.)-The waywardness and wilfulness of pretty Annie Skelton, now celebrated as the young woman in one of the most sensational murder cases in the south, not only drakged her name before the public and stained with blood the fair honor of her family, but it broke more than one heart which had loved and believed in her. She had a number of sweethearts. One of these was John D. Freeman, a young man well known in this section, and now reading law at Tuscaloosa, Ala. Mr. Freeman knew her in her girlhood when the purity and inno-cense manifest in her character and shining through the windows of her soul, made her life as beautiful as her person, and he loved her passionately. She treated him shamefully, though permitting an engagement. He would travel hundreds of miles to see her, only to find her favoring some transient friend, breaking an engagement for the evening with Freeman to receive the passing caller. Yet his love was constant and his faith in her virtue implicit, even under the strain of terrible checks.

under the strain of terrible shocks. Some time last summer Miss Skelton vis-ited in Chattanooga when, as at all other times, she was a guest at the swellest social functions. One night a swell dance was given at the Mountain City Club. After the dance, as gossip whispered, she was accompanied to her hotel by her escort and at a late hour the two were asked to leave the hotel Freeman heard this while down in Alabama, and came to Chattanooga to investigate, meantime sending for his engagement ring. But he managed to satisfy himself of the falceness of this recort and rangement ring. But he managed to satisfy himself of the falseness of this report and recalled his request. Then, to win her forgiveness, purchased from Fischer, jeweler of this city, a diamond bracetet, costing \$150. What his feelings were therefore, when he learned of her leaving home with Ross, can only be imagined. But his purpose in the premises seems to be well shown by his expressions in a letter to a friend the morning after Ross was killed. Free-

Rich with sensations and replete with sur-prises as this now celebrated case has been, the perocedings at the final trial promise to equal, if not surpass in new and unexpected things. Miss Skelton, who is now lying very ill in Cincinnati, will, by that time, be able to appear in the witness stand and tell her own story which cannot be otherwise than decidedly interesting. Not leas so will be the testimony of a number of men who are to be subpensed. Two of these young men live in Chattanooga and are members

to Sing Sing. Brooklyn, February 19.—John Y. McKane, the convicted Gravesend political boss, was sentenced this morning by Justice Willard Bartlett, in the court of oyer and terminer, to six years' imprisonment in the state prison at Sing Sing.

The sentence was a great surprise to every cre. It was expected that the jury's recommendation to mercy would induce Justice Bartlett to be more lenlent.

When the judge pronounced sentence, McKane turned deathly pale and clutched the

Kane turned deathly pale and clutched the railing before him and tears rolled down his cheeks.

Justice Bartlett took his seat on the bench at 10:11 o'clock. McKane had been brought from Raymond street jail as early as 9 o'clock. His counsel arrived there at 10 o'clock sharp. They had to elbow and squeeze their way through the biggest crowd that has ever assembled at the courthouse in this city. When the lawyers got inside it developed that McKane had secured additional counsel in the person of Colonel Edwin C. James, of New York.

Mr. James did all the talking for the condemned man this morning. He made motions for a new trial, arrest of judgment, suspension of judgment and for twenty days' time to prepare exceptions for a stay. Justice Bartlett denied all of these motions. Justice Bartlett took his seat on the bench

days' time to prepare exceptions for a stay. Justice Bartlett denied all of these motions.

Then Colonel James made a long plea for mercy. McKane listened with downcsst eyes and flushed face. After the plea was finished. E. M. Shepard, for the state, asked that a long sentence be pronounced. Clerk Byrne then asked McKane the usual question: "Have you anything to say why sentence should not be passed?"

McKane arose, scized the vailing with his left hand, and in a trembling voice said: "I don't know whether I have anything to sav much. I am not guilty. I never did anything wrong in my life. I had nothing to do last election with the inspectors. I never advised them, much less to do anything wrong. I am not guilty. I never did anything wrong in all my life."

His voice grew weaker as he spoke the last words. He hesitated and then turned towards his chair.

"Hold on a minute." said Clerk Byrne. "McKane, you have not yet heard your sentence." McKane turned back again, caught the railing with his left hand and put his right hand into his pocket. Then, with lifted head and closed eyes, he listened.

The voice of Justice Barflett broke the silence. "I am not at liberty." he said in a tone of intensity, "to disregard the recommendation of the jury for mercy. Nevertheless, in passing sentence, I can-Nevertheless, in passing sentence, I cannot overlook the great gravity of the crime of which this defendant has been convicted. The fact that he disobeyed the laws is the more a matter of moment, for the reason that he is the intelligent man who exercised wide authority and who knew what the law was. This aggravates the offense. The sentence should not be light, lest it could not be a proper punishment, and on the other hand, it should not be so severe as to excite sympathy. The sentence of the court is that you be confined in the state prison at Sing Sing for the term of six years."

prison at Sing Sing for the term of six years."

As Justice Bartlett spoke the prisoner's face had gradually grown whiter, and as the words, "six years," fell on his ears, his countenance turned pallid. He started to go to his chair with his eyes still closed. As he felt his way along like a man stricken blind by the severity of the sentence, Sheriff Buttling took him by the arm and helped him into a seat.

Then the courtroom burst into an uproar. The court officers and the judge vainly endeavored to restore order. The lawyers tried to talk to the court but they could not be heard.

Sheriff Buttling took the prisoner into a side room and kept him there until a squad of policemen cleared the halls. After that he took him to the sheriff's office and they to the jail.

### AN EQUAL DIVISION.

North Alabama Furnishes the Voters and South Alabama the Officeholders.

UPPER ALABAMA WANTS A CHANGE

The Kolbites Did Not Divide Up the lonors, but the Organized Dem-ocrats May Scatter Them.

Birmingham, Ala., February 19 .- (Special.) "In the organized or disorganized, the ribald or genuine democracy north Alabama always furnishes the voters and south Alabama the office holders," said an old-school democrat to The Constitution's correspondent today. "It always has been so and al-ways will be, I'm afraid. I thought the Kolbites would have policy enough to put a few north Alabama men on their ticket, but they did not. I knew old man Turentine, of Athens, would get left. He asked to name him for attorney general, and being the only north Alabama man who was asking for anything, it was thought be certainly would get it, but a young lontgomery lawyer of two or three years' experience walks off with the honor.

A Londed Post.

Birmingham, Ala., Fébruary 19.-(Special.) citizen of Tuscaloosa has been in the habit of placing a post at the corner or his residence lot to keep wagons from strik-ing his fence and knocking off the palings. Every time a cold snap would come along his post would disappear in the night. Hav ing an inventive brain, he conceived the idea of putting up a new post and loading It with powder. During the recent cold snap it disappeared. Shortly afterward an explosion was heard in a negro cabin not far away and one entire end of the hut was blown away. Fortunately nobody was hurt. The negro who took the post swears he will never break the aighth command. never break the eighth commandment again.

### TURFMEN FIGHT.

A Pistol Is Fired, One Man Is Shot and a Horse Killed.

Opelika, Ala., February 19.—(Special.)—
Passengers on the train from Roanoke, Ala., bring particulars of a difficulty which occurred at a country race track three miles from Roanoke, late Saturday afternoon, in which Mr. Bishop Harving a well-known. which Mr. Bishop Harris, a well-known turfman and livery stable man, was injured pretty badly by a Mr. Poole. The difficulty first originated from a horse race, in which a horse belonging to Mr. Harris was pitted against a horse belonging to Poole. Har-ris reached the track at the time specified agreement, but Poole did not show up in time, and a negro tenant of Poole's who carried the latter's horse to the track, entered him, and van the race in the absence of Poole, who came up after the race, got angry, and openly accused Mr. of swindling him out of the race Harris showed resentment, and started dismount, whereupon Poole jerked a 44-caliber pistol from his pocket and fired at rris. The ball passed through Harris's and killed the horse instantly, which was a thoroughbred animal and very valuable. Friends here interfered, and for a while a general fistleuff took place, without any further serious results. The extent of Mr. Harris's injuries is not known. Sheriff Willoughby, of Randolph county, placed all parties under arrest. Harris's hond was treed at \$500. Find the state of t bond was fixed at \$500: Poole at \$300, and the others, some ten in number, at \$200 each. The cases were appealed to the grand jury.

large a majority as he received in 1892.

RAILROAD MEN SIGN. The Nashville, Chattanooga and St

Louis Make a New Contract.

Nashville, Tenn., February 19.—(Special.)—
The conference between the president of the Nashville, Chattanooga and St. Louis railroad, J. W. Thomas, and the chairmen of the federated board representing the conductors, switchmen, fremen and trainconductors, switchmen, ffremen and train-men of this system ended tonight in a renewal of the agreement that was abrogated by President Thomas the latter part of January, to take effect March 1st. Wages were reduced September 1st and the road has had to have the time extended several times. President Thomas said that the times would not for some time allow a restoration and abrogated the contract so as to obviate the necessity of having to

ask for frequent extensions of time.

The conferences of the past week have resulted in the restoration of the old rates of wages, but with an agreement also to accept the 10 per cent reduction in pay un-til times improve so as to justify the increase. This was signed by the men here and binds their respective orders, as the chairman have the power to arbitrate finally, All the committeemen left for home

Contest in Fayette.

Fayetteville, Ga., February 19.—(Special.) is seems that the selection of a sheriff for Fayette county is a long ways off. T. J. Mitchell, the democratic nominee, was declared elected over E. S. Stinchcomb, populist, by a majority of eight votes, by the consolidating managers. The populists claimed that Stinchcomb was fairly elected by a majority of the legal votes cast, and today through their attorneys, Weems and Garland, filed notice of contest. It is understood that Dorsey, Brewster & Howell, of Atlanta, represent Mr. Mitchell. The outcome is looked forward to with great interest here. Both nominees are popular and influential citizens and undoubtedly were the strongest candidates that could have been put forward by either party.

immediately after the meeting started to work, Mr. Peters, of the sixth ward, arose and moved that the rules be suspended so that parties could be heard. "For," said the gentleman from the sixth, "they are here to talk about the exposition and I know of nothing about which the members of this body had rather hear. The motion was adopted without a dis senting vote, and then Mr. Peters presented Captain J. W. "I am one of the committee," said he, appointed by the Cotton States and International exposition to come before your body. The other members of the committee are, Mr. Sam Inman, Mr. Henry Cabaniss, and Mr. Clark Howell. We, as a committee, are instructed to ask the appointment of a committee from this body to confer with us in alding the coming exposition through. Every member of the general council is acquainted with the work and it is not necessary for me to go into details. You are all aware to that we are compelled to look to the representatives of the people of At-lanta, here assembled, for some help, and for that purpose we are here today. We all know the great good the work we are now seeking to bring about will do for the city and realizing that you all know it, we come before you for assistance. The work has already been too long delayed, and we have but little time to consider or think of the matter. The sooner we start, the better it will be for all of us. Let us get together and get to work. If the presiding officer will appoint the committee from this council, it won't take us long to get to work, and the sooner we get to work, the better it the sooner we get to work, the better it will be for all concerned. If the city can help us along, all right, and we would like to know it at once. I would suggest that the mayor or the mayor pro tem, appoint a committee to confer with the exposition people about this matter'

"How many would you suggest on that ommittee, Captain English?" asked Mr. Harralson. "A delegation from the board of aldermen." was Captain English's reply, and a member of the council from each ward. That would be about as complete and extensive a representation of the city as it would be possible to secure."

"I have here," said the clerk, "a letter

from the mayor on this subject, which he

The letter was produced and read. It was quite lengthy and showed that the mayor was thoroughly in accord with any move ment on the part of the city to aid the exposition. He was willing for the general council, as a legislative body, to do anything that was within the laws of the city to assist the exposition along, and declared that it would result in great good to Atlan ta. Substantially, Mayor Goodwin said in

The Cotton States and International Exsition, proposed to be held in this city in b, well deserves the recognition and encouragement of the city government of our city and our public-spirited people. So long as this laudable enterprise was

being provided for only by subscriptions from individuals and private corporations, from individuals and private corporations, the place and manner of holding it could well be left to the choice of those who were inaugurating and sustaining it. But, it asmuch as it is now well and generally understood that the city government is to be called upon for substantial aid in behalf of this great enterprise, and as it may be found desirable for the city in some proper and legal way to extend such cooperation, the place and manner of holding it becomes a matter of importance to the city, for the reason that only such aid as is fairly within the charter power of the city can be given, and for the further reason that in whatever way this aid can be legally given it is necessary, in the interest of good municipal government, that it should be utilized to the best advantage and interest of the exposition.

The old waterworks such of the city of the city and waterworks.

and interest of the exposition.

The old waterworks land embraces a tract of 368 acres lying south of the city, and being four and a half miles from the union depot. Of the 368 acres, about sixty acres are covered by the present reservoir, which is a beautiful lake and would add greatly to the comfort and attractiveness of the exposition. It is within three-quarters of a mile of the Atlanta and Florida railroad, within one mile of the East Tennessee, Virginia and Georgia railroad, within one and three-fourths miles of the Atlanta and West Point railroad, and also of the Central; thus being directly accessible to four main lines of railroad, and is within three-fourths of a mile of the West End and McPherson barracks railroad.

ble to four main lines of railroad, and is within three-fourths of a mile of the West End and McPherson barracks railroad.

This tract is larger than the Piedmont park tract, but the latter is nearer to the city, being two and one-fourth miles from the union depot. Piedmont park is directly accessible to one railroad line, the Richmond and Danville, and the Seaboard Air-Line, by an extension of two miles. could reach it. The street railroad facilities to Piedmont park are good, having the Boulevard, or Ponce de Leon line, and the Peachtree street line, and an extension easily practicable to be made on Piedmont avenue. Thus Piedmont park would have accessibility from two railroad lines or from three, if we regard the Georgia Pacific along with and as a part of the Richmond and Danville railroad. The other tract owned by the city is at the first pumping station of the new waterworks, at the mouth of Peachtree creek where the same enters into the Chattahoochee river. This tract consists of 125 acres, and is beautiful and picturesque, and is on two streams, which have become historic. The pumping station only occupies an acre or two of this tract of land, so that the great body of it could be utilized for exposition purposes. The city also owns an island in the Chattahoochee, just off from the point of the confluence of the river and creek, and this island embraces six acres, and could be utilized as a great attraction of the exposition if held there. This land is six and a quarter miles from the union depot by the pipe line at Luckie street, Hemphill avenue and Chattahoochee avenue. For railroad accessibility it is well situated. It is within a mile of the Western and Atlantic railroad. It is also within a mile and a half of the Georgia Pacific and the East Tennessee railroads.

It has been my purpose, in calling attention to these matters, to deal with judicial fairness as to cach of them, and if in any respect I have fallen short of this purpose it is for lack of more definite information; but certainly the fore

ownership and for cility.

Of one thing am sure, and that is that a site should be chosen solely with the view of the interest and success of the exposition enterprise, with such other general and incidental benefits to the city and people as will naturally and legitimately flow from it.

The matter of an exposition is a great public enterprise in behalf of Atlanta, herecome and of the south, and rises in im-

ple as will naturally and legitimately flow from it.

The matter of an exposition is a great public enterprise in behalf of Atlanta, her people and of the south, and rises in importance over the individual interests of any man or set of men, and should, and, I have no doubt will be conducted on this high plane whatever site may be chosen. I would not disparage or criticise anything which has been done up to this time touching the matter of a site, but give expression to the views herein made for the purpose of emphasizing. If I can, the public character of the work and the importance of having the city's contribution to it made in that way which for the least extenditure will do the most good for the public.

I would respectfully recommend that each of the tracts belonging to the city be tendered for the use of the exposition free of cost, and that, when the time for the

consideration of this subject arrives, the committee on public buildings and grounds of your body be authorized to go further and consider the work in the way of improvement or building the city will do in case either of the tracts be accepted; and that if neither be accepted, and it shall be finally resolved to hold the exposition at Piedmont park, that then this committee also confer as to what if anything the city can legally do in the way of aid if the exposition is held there, and that as to each and all of these matters the city attorney act and confer with the committee on public buildings and grounds. Respectfully submitted, "That letter," said Captain English, who had not left the floor during the reading of Mayor Goodwin's letter, "is just as it should be in the main. I and the other members of the committee thank the mayor very much too, for what he has said, and in returning our thanks. I desire to say that this is no private enterprise, but is one in which every member of the city council is equally interested, and that it is for the good of the entire city and for no portion of

good of the entire city and for no portion of

it."

Mr. Harman, of the sixth, presented a resolution calling for the appointment of a committee of three from the aldermanic board and one from each ward to confer with the exposition committee and to report back to the general council. The resolution provided that Mayor Pro Tem. Broyles should be chairman of that committee.

The committee appointed was: Messrs. Boyd and Colville of the aldermanic board; Mr. Hirsch, of the first ward; Mr. Stockdell, of the second ward; Mr. Beatle, of the third ward: Mr. Campbell. of the fourth

third ward; Mr. Campbell, of the fourth ward; Mr. Welch, of the fifth ward; Mr. Harman, of the sixth ward, and Mr. Nelms, of the seventh ward.

The Building Inspectors.

The building Inspectors.

The building inspectors submitted a paper showing that they had examined the Norcross building thoroughly, and that the examination had extended to the partition wall between that building and the Juilding owned by Mr. Berry. The partition wall, the building inspectors declared, was unsafe, asserting, as they did, that it sagged. In the opinion of the committee a new wall would be necessary in the event a new building was put up, such a building as Mr. Norcross indiup, such a building as Mr. Norcross indi-cates he will erect. The report of the com-

mittee was adopted.

The building inspectors presented a report showing that the condition of the Powell building at the junction of Peachtree and Broad streets was unsafe to pedestrians on account of the pilaster and suggested

on account of the pilaster and suggested that the same be removed. Mr. Howell introduced a resolution requiring the owner of the building to tear away the pilaster and, providing that if he did not conform with the terms of the resolu-tion that the city should do the work and unt of the cost from the owner of the building. The resolution was adopted.

The Laws Governing Bridges.

The new building laws were presented to the council. The code is one of great length and as it deals with things vital to At-lanta's interest the great bundle was de-ferred to a special session of the general council which is to be held next Thursday afternoon.

To Change the Name.

The street committee presented a resolu-tion changing the name of Greensferry avenue to Nelms avenue. The resolution was in response to a petition which had been presented a month ago, and upon which the street committee made its re-port in the way of the resolution. The reading of the resolution brought Mr. Beatie to his feet:

"I don't like this changing names of streets," said he. "Once before when I was a member of the council the same thing had just been tried and it took the hardest work of my life to keep the members from wiping out all the old landmarks. They changed McDonough street to Capitol avenue. We all know what McDonough street and McDonough road are but there are few of us who know what Capitol avenue Then they changed Crew street to South avenue, but we got that back. Then they changed Frazer street to Congress avenue and again we got it back. But we were never able to get McDonough street back. All of those names were historic with Atlanta. Now I have no objection to the

Atlanta. Now I have no objection to the name suggested by the committee in this change, but I am opposed to any changes of the names of streets. A citizen at this rate can go away from Atlanta and remain only a short time and yet when he comes back he won't know how to find himself."

The report of the committee was accommand hereafter Greensferry avenue will be known as Nems avenue.

The Vitrified Brick.

The Vitrified Brick. A resolution deferring the opening of bids for the vitrified brick on Pryor street to March 5th was presented by the street com-mittee and was adopted. Mr. Stephens seimmediately after the adop cured the floor immediately after the adoption and asked that the action of the council be reconsidered. The reconsideration was adopted by a vote of the body and then Mr. Stephens presented a resolution ordering the commissioner of public works to advertise for sealed proposals to furnish material and lay down such vitrified brick pavements as may be ordered in the city of Atlanta. Such proposals to cover work to be ordered for one year, two years and three years separately. The proposals to be based on specifications to be prepared by the city engineer. These proposals to cover be ordered for one year, two years and three years separately. The proposals to be based on specifications to be prepared by the city engineer. These proposals to cover the work aiready petitioned for on South Pryor street, as well as other work hereatter ordered. Bond and security to be given by the contractor to the satisfaction of the mayor and finance committee. Bidders will also state on what terms they will also state on the case state on the privilege of paying for the assessment to such track paying one-fourth cash and the balance in three equal annual installments. The right to be reserved to the city to reject any and all bids. Advertising to cost not exceeding \$25. Bids to be opened March 19, 1894.

Mr. Stephens stated that his main reason for introducing the resolution was because the parties in Atlanta who were now trying to make a vitrified brick from a clay found around Atlanta had been informed that the work could not be satisfactorily demonstrated before the middle of March.

Mr. Welch, of the second ward, wanted the matter, as far as Pryor street was concerned, to be settled at once. He had no opposition to be settled at once. He had no opposition to be settled at once. He had no objection to seeing the Pryor street work for right along, here to ascertain whether or not Atlanta and the dirt around the city can make these brick, and if we find that it can be done, then we have a big competition for any company that comes here and wants to do our vitrified wor. Not only that, we are establishing an industry which will give to the people of Atlanta work Many of those who are now out of work and want work will be able to find it if we find that the clay around Atlanta will make the vitrified brick needed."

Mr. Dimmock presented a resolution au thorizing the waterworks committee to look into the advisability of having a public comfort building erected at the artesian well stand. The resolution was adopted.

Atlanta Is Growing. Atlanta Is Growing.

The fire department committee reforted in favor of building permits to Venable Bros. at 39-41 Forsyth street; to S. A. & J. A. Morris, 163 Decatur street; to Pim & Taylor, S1-83 Peachtree street; to Mrs. J. E. Murdock, at 28 Auburn avenue; to James Lynch, 66 Decatur street; to S. P. Latham, 162 Courland avenue; to John Ryan, at 75 Broad street, and to Dr. J. H. B. Holmes, on Cone street. Broad street, and to Dr. on Cone street.

The finance committee reported the amount of warrants drawn on the city treasury since the last meeting of the general council to be \$56,085.83.

Regulating the Plumbers.

Mr. Campbell presented an ordinance regulating the plumbers of the city of Atlanta. It provided for a board of examiners and regulated the manner in which any plumber of the city could be allowed to work. The ordinance was referred to the sanitary committee.

The City's Garbage Disposed Of.

Mr. Stockdell, chairman of the special committee on a consultation with the Dixon crematory about disposing of the city garbage, submitted a report showing that a contract with the company had been made by which one of the crematories was to go up and to be given a trial of twelve months. The terms and details were satisfactory to the committee and the council adopted the report of the special committee.

PYTHIAN KNIGHTS.

They Celebrate Their Thirtieth Anniversary Last Night.

Under the auspices of Atlanta lodge, No. 20, Knights of Pythias, a highly enjoyable entertainment by a number of the noted lights of Atlanta's musical world was given

last evening. The occasion was the thirtleth anniversary of the organization of the Knights of Pythias of the world, whose order has grown during a quarter of a century from

a mere handful to a steadily increasing multitude, now numbering 450,000.
The Atlanta lodge No. 20 is the oldest and largest in the city. It was organized October 6, 1877, and some of the landmarks in Atlanta's citizenship were its first officers and members. The lodge is now 200 strong, and has the reputation of being one most enterprising and beneficent in the wnole organization. Some of the most solid of Atlanta's men are included in its ranks

At the celebration last evening there was a very large number of the fair sex.

their return to work. For years past there has been no industry in the south which has given work to more men than the Winship Machine Company, and it was one of the last to decrease its force when the hard times came on last year. And it has been one of the first this year to re-establish its old-time force and throw on the full capacity of its mills this year. More than one hundred and fifty men went home last night happywhich were started yesterday by the Win ship Company.

### THE LOST NAME.

The Strange Story of the Man in Grady Hospital,

WHO HAS FORGOTTEN HIMSELF.

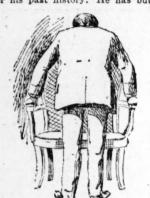

He Talks About People Whom He Has Known.

AND SHOWS RETURNING MEMORY

He Discovers That His Father's Name Was Emil Draughn, and Is Slowly Recalling Early Happenings.

Dr. Hale's "Man Without a Country" was not half so bereft as the unfortunate individual at the Grady hospital without either a name or a past.

Name, past, friends, home, even conscience, were lost in the wreck. He awoke in a hospital ward with a new mind, through which vague, imperfect, ghostly, fragmentary visions were flitting in confusing disorder. These ghostly figures seemed familiar and the lost man, the stranger to himself, clung to these torn shreds as the shadows of his past. Out of it all he has eagerly tried to identify himself or his past history. He has but par-

WITHOUT A NAME.

tially succeeded. A few incomplete passages from his past have been established in his mind and he is safely on the way to finding himself.

The pitiful spectacle that the lost man presented was one of absorbing interest to the physician and psychologist. His case is one not without precedent, but of sufficient rarity of occurrence to make it the subject of great study. Outside of fiction few such extraordinary instances have been presented. The picture of a man discovering himself is one that but few of the physicians in Atlanta have seen.

A Victim of Aphasia. The lost man, who was yesterday discovered to be named Draughn, is the victim of a species of aphasia. This is an infirmity that attacks the delicate machinery of the brain. It is often a natural indrmity, but oftener produced by a powerful blow on the brain. Sometimes it destroys the power of speech, sometimes memory, sometimes sight. In this instance memory has been locked up, but it is hoped not entirely de-

stroyed. It is only within the past few days that the hospital physicians have agreed that Draughn's silence was the result of anhasia. His reticence in speaking of himself was attributed to guilt and the physicians declared that he was shamming. It is now apparent to the most indifferent observer that his memory is suspended. Since It has been discovered that he has aphasia the interest in his case has multiplied a hundred fold. It has attracted the attention of every physician in the city and is

the gossip of the streets.

TB GIVE THE WORLD TO KNOW MY

physicians have regarded it with wonder. But few of them have ever met with similar instances, save within the medical records, but all are familiar with the theory of aphasia.

The patient at the hospital has passed through many stages of recovery. First the power of speech, which for three weeks was inactive, was restored. Then his faculty of observing came back and he became thoroughly cognizant of everything transpiring about him.

Did Not Know Himself. He was in the strange predicament of not

knowing who he was, and feeling a keen of the importance of kn Time and time again he stated to the city detectives that he would give half of his possessions to any one that would tell him who he was.

The spectacle of the stranger trying to master his past was a most impressive one. He was like a child learning its first lesson. He went about the task with unfeigned eagerness and never became fatigued. For hours he listened to the questions of the physicians, detectives and others and tried hard to answer every ques-

A gentleman supplied the detectives with a long list of names of people residing at Winston and Salem, N. C. It had been learned that Draughn had once lived there, but without assistance he could not name a single resident of either place. One by one the names were called over to him, he bending forward in his eagerness to hear. His ruddy face was expressive of the deepest attention and at every question his brow knitted in thought. Many of the people he knew, and after thinking for a few minutes recalled some fact concerning them. In this way he remembered various

points of his own past. As Detective Cason entered the room where he was some one pointed to the offi-cer and asked the stranger if he knew him. "Oh, yes," said he, rising and holding out his hand with childish pleasure. "Yes;

he's going to find me." "What does he do?" was asked. The man thought for a moment intently. "Now, I don't know that," he said, and arose with alacrity and walked to a table; "but I can show you what he is." He picked up a card that the detective had given him several days ago and handed

it to his questioner. "That's him," he remarked. Although he is a man of fair education,

ne could not read the card, but had treas ured it up with interest.

Jagging His Memory. "Do you know old man Alfriend, at Win-

ston?" he was asked. "Oh, yes," he said, after some slight hesitation. "But he's not at Winston, He's at Salem. Got a place where you buy what you want." The questioner confirmed what the man said.

"Do you know Mr. Yokely, the horse dealer?" "Why, yes," he said eagerly. "Of course

I do. I know him as good as I can. There's three of them, and I know them, too. One's a-a-he's-'

Failing to find words expressive of his thoughts, he held out his arms in a circular fashion.

"Fat," suggested Detective Cason. "Yes, that's it," he said, enthusiastically. "Good one; never had any one-you know there wasn't any woman.'

"He's not married, you mean," said the detective. The stranger nodded vigorously. The long list of names was gone through with and the stranger drank in every word that was said to him. He recognized many names and tried to tell something about the ones he knew, but his words were so confused that he could not make himself intelligible. He seemed to have a clear idea of what he wanted to say, however.

The name of Mr. Seitze was called. His

"WHO AM I? WHO AM I?"

ous light, like that in the face of a pleased child, came into his eyes.

"Oh, I know him; I know him," he said, excitedly; "ask me more. He's right up there, you know. I'm right up here, and he's right up there." He illustrated by his gestures rather than his words that he meant that Seitze occupied a farm adjoining his. In his eagerness to tell something about this his mind brightened perceptibly and his words came with less difficulty.

"He's got a store," he said. "It's right up on the road and I go by it in my buggy. He's got a place. It's part of the way to Salem and part of the way to Winston. You have to go by it. He knows me, too.' The name of an old shoemaker was men-

"See him all the time," he said. "He don't do anything but stay there. He wouldn't do anything else if he couldn't make any money. He just stays up there

and works, works, works." The name of a prominent minister was

called. "Oh, I know him good," he said; "I'll tell you what he does in a minute. Oh, I'll tell you; he stands up there, stands up over, you know, and talks and tells you things you want when you die. And you pay him money. He talks about things when you

"You can't remember your name?" was asked him.

"No," was the earnest reply, "I would krow it if you only would mention it. I would give anything to the man who will tell me about myself." To Detective Cason he remarked: "They

understood. He uses his words in the wrong place and seems to be unable to choose the proper words.

His Name Discovered. Yesterday morning he talked with a number of patients at the hospital concerning his name. Suddenly he rushed into the room adjoining his, which is occupied by Mr. Hanks, and cried enthusiastically: have found my father's name and I do believe it's mine, too. It's Draughn-

Emil Draughn, and he's in Germany. I believe that's my name, too."

He was jubilant over his discovery and told of it in the most excited manner to all who came near him. Later in the day a lady whose husband had become interest-ed in the case called to see the stranger "Now, I don't know that," he said, and suddenly a thought came to him and he that she knew him in Salem, N. C. Full

confirmation is expected by Chief Connolly today. He has written to parties in Winston and Salem and expects to hear from his communications today. He received several communications yesterday. One from Richard Travis says that, judging from the picture published in Sunday's Constitution, the man is T. A. Sanner, of Tremont, Pa. A picture was also sent, which was accompanied by a letter saying that the man was named Pannell and that he disappeared from Atlanta five or six years ago. The picture resembled the one Chief Connolly has so very much that the chief was led to believe that they were of the same person.

Draughn is about as vigorous new as he ever was and he assists the nurses at the hospital. He is a good-humored fellow and frequently laughs at what is said to him with keen appreciation of hu nor. What Dr. Elkin Says.

Dr. W. S. Elkin was asked about such cases, and said:

"It is a kind of aphasia, and is caused, doubtless, by a clot of blood settling over the center of the sense of memory. In such cases the patient may gradually recover, the blood being absorbed by nature. Trephining is the remedy used in very extreme cases. This is a very delicate operation and in all cases dangerous. Of this case I know practically nothing, but I should juda that in time he will come into the full possession of all his faculties."

"After Dark" Tonight.

"After Dark," with the famous Jack Dempsey, will be at the Grand tonight. There is no denying the sensational and dramatic interest of Boucicault's "After Dark." Of its class there is probably nothing better. This season that enterprising young manager, William A. Brady, promises to produce it in better style than ever and it may be expected tonight and Wednesday that the Grand will be crowded at each performance, though this is the sixth annual production here in succession. The company is said to be the strongest yet engaged by Mr. Brady, and the scenery, of, course, will be a strong point. Some novel effects of a starting kind are to be introduced in the railway tunnel scene and the view of the river Thames at London bridge is said to be unusually realistic. In the concert hall scene many new and interesting specialties will be introduced, notably the sparring contest between Jack Dempsey, the hero of fifty-one battles, and Denny Costigan. The gadiator will be attired in full athletic costume.

Matinee Wednesday at 2:30 o'clock.

The Natall Concert. The Louise Natali engagement is the regnant theme of conversation in musical circles, and it is a foregone conclusion that the distinguished prima donna and her company of artists will be greeted by a large and fashionable audience Thursday night.
Already there is an active demand for re-

served seats, and everybody is pleased at the announcement that there will be no advance in the prices of tickets.

critic in this country, Mr. H. E. Krabell, recently published the subjoined biographical sketch:

"In recent grand opera successes in New York, Boston, Philadelphia, San Francisco and other prominent cities of the United States, no name has been more prominently before the public than that of Louise Natali, and no singer has achieved a more giorious reputation than she has won by her splendid talents. Mme. Natali, by ardent study in the cultivation of rich vocal and excellent dramatic talent, has brought herself to the front rank of American prima donnas, and, in addition to several highly successful seasons of fine operatic engagements in this country, she has gained laurels in Paris, Madrid, Barcelona, Lisbon and other European cities in which she has played engagements, surrounded by some of the best toreign artists of the day. She was born at Bloomington, Ill., and her malden name was Belle Barnes—she not being of Italian, but of American parentage. At thirteen she was the organist of one of the principal churches in Bloomington. Katie Putnam and her excellent comedy company will give three performances at the Grand, commencing Friday, February 23d. The repertoire will be as follows: "The Little Mayerick" Friday night and Saturday matinee, and "Love Finds a Way" Saturday night. An elegant cabinet photo of Miss Putnam, with autograph attached, will be given to every lady as a souvenir.

At the Edgewood.

"St. Patrick's Eve," a pretty Irish com-edy-drama, was the bill at the Edgewood Avenue theater last nign. Miss Warren and her company presented this charming Irish play in a most acceptable manner. The house was crowded, which shows that Miss Warren's popularity increases with her stay in Atlanta

stay in Atlanta.

Mr. George Warren, as the Irish tramp, kept the audience in a roar of laughter during the entire performance. Miss warren will give two performances every day this week and has made a decided change in her matinee prices.

At every matinee this week the charge for general admission will be 10 cents. This change has been made simply because Miss Warren wishes every one to visit the Edgewoog averue theater during here engagement.

The silk dress is to be given away on Saturday night, but at every performance during the week tickets for the drawing will be given to every person entering the house.

**NEWGOODS** 

THIS WEEK.

# Johnson & Co.

Dry Goods.

We are now getting in our new goods. Among them is a large shipment of Spring Capes, ranging in price from \$6 to \$25. For elegance and beauty these goods cannot be excelled, and in our Lace Department we have now opened our full line in Embroideries and Laces. The designs are perfectly magnificent. In Dress Goods and Trimmings we have a fine stock, and you can get a dress real cheap to make room for the mammoth stock. Mr. Johnson is buying. The goods are the best; the styles the

latest. If you need Table Linens, see our stock. For Towels and Napkins we can certainly give you better goods and we think for less money than ever before.

Carpets.

Full and complete stock of new Carpets and Draperies just in. The designs and shadings are, if possible, more beautiful than ever, and the prices were never lower. There is no excuse for buying old moth eaten carpets when you can get fresh, new goods just from the looms at the present prices. Of course you want stylish curtains. We have them and can please you in prices. In Mattings we can supply all who want good goods. Good mattings are so cheap that it will be extravagant to buy poor mattings. See our line in Linoleums for your office and hall. Do you nee ad Carpet Sweeper? \$3.50 gets the Golden Medal, the best in the world. Try one.

### Furniture.

In dining room goods we have the most magnificent stock in the southern states. Our goods are the best made, all hard woods, and our prices the lowest. Think of a fine oak sideboard for \$32.50 and an 8-foot extension table for \$10 and \$15. Chairs to match for \$1.50 each. Good bedroom suits for \$20, \$25, \$35 and up. Folding Portiere Bed \$12.50. Largest and best line of children's beds in the city in white enameled Maple, Birch and Oak. Fine assortment in folding beds—the best made. Large assortment in Ladies' Desks and in Parlor Goods. We can give more value for prices than you can get in New York or any other city. Best \$100 Parlor suite of five pieces in the world. See it

this week. If your want to sleep well, get our Springs and Mattresses. If you want your room to look well, get one of our suits of Furniture.

Do you need a pair? Don't buy until you examine our stock. Did you ever have a shoe to hurt? There is no excuse for a poor-fitting shoe. We keep all the widths, and can fit your foot. Where do you get your children's school shoes? We make them a special feature in our business, and you will find it rigid economy to buy from us. It is reckless extravagance to buy a romping school boy poor shoes. The best is the cheapest, for him and for you.

Now, in shopping for anything in our line, don't fail to see our new stuff. If you do not want a suit, you may need a chair. If you don't need a carpet, you may need a rug, If you don't need a dress, you may need a pair of Hose or something else. You will always find us willing to sell same quality as low as it can be had. Don't forget to eome and see the new goods.

The Speaker and The Constitution.

The cuckoos of the patronage press, who were the bitterest enemies of Speaker Crisp when his nomination for speaker hung in the balance before the democratic caucus, and who left nothing undone to defeat him, are at present engaged in the harmless amusement of trying to make it appear that The Constitution, which has for so long been, and which is now, one of the speaker's greatest admirers, is not as enthusiastic in its friendship as it once was. The cuckoos go further than that in their effort to misrepresent The Constitution by attributing to it the views of a casual observer, expressed in its local columns.

As to The Constitution and Speaker Crisp, the record speaks for itself. He did not have a more enthusiastic advocate in his race for the speakership, and he has not a better friend now. It has never been, and never will be, the policy of The Constitution to publish only such news items as agree with its editorial views. Other papers may be conducted on that line, but ours is more liberal. In publishing casual comments on the political situation, picked up here and there, we do not stop to inquire whether or not every person quoted agrees with The Constitution.

Our news columns speak for themselves, and the opinion of The Constitution can be very easily obtained by reference to its editorial columns. Fortunately, they are unencumbered, and there is no inducement under the sun that would cause them to be turned against the interests of the people of Georgia, or which could turn them to the advocacy of principles which threaten the prosperity of the country, and which seek to sacrifice the welfare of the great mass of the people for the benefit of a

As to Speaker Crisp, The Constitution has not in the slightest degree altered its good opinion of him. We believe that when he announced that the committees appointed by him were in favor of carrying out the pledges of the democratic platform he was perfectly sincere in the statement, and that it was his intention so to construct his committees.

Since it appears, however, that there is some doubt as to the committee on banking and currency and the committee on coinage, weights and measures meeting the expectations of the speaker and of the people, we believe, that Speaker Crisp should and will be all the more active in giving the democrats of the house an opportunity to put themselves on record on the repeal of the 10 per cent tax on state banks and on the coinage of both gold and silver as standard money metals of the country, as promised by the democratic platform.

When the committee on coinage and the committee on banking and currency were selected the speaker was of the opinion that he had chosen men who could be depended on to carry out the democratic platform. He chose men who, as far as he could judge at the time, were as earnest and as sincere then as he was and is now in favor of putting into practical shape and operation the pledges of the democratic platform. He had confidence in these men, and he selected them as a part of the machinery of the democratic house to carry out the solemn pledges made to the people.

But there has been a hitch in the programme. Some of the men whom the speaker thought had an earnest desire to satisfy the people and make the future of the party secure have either changed their views entirely, or have shrank from carrying out the policies pledged in the platform and demanded by the people.

Just who these men are and why they are now hesitating to carry out the democratic policy are questions of interest, but not of vital importance. But it is a matter of vital importance to know whether their change of views or their hesitation is to cause a collapse in the policy of the party and possibly bring it to grief in the fall elections.

Under these circumstances, and in view of the tremendous interests at stake -interests that far surpass in their importance any temporary success or defeat of the party-Speaker Crisp has a

ders. As the leader of the party in congress, he has it in his power to have bills embodying the policy of the party brought into the house and considered. His power is such that any measure behind which he places the strength of his influence cannot possibly be ignored by the democrats of the house.

As a democratic leader, therefore, as well as the speaker of the house, it is the duty of Mr. Crisp to secure immediate consideration for a bill repealing the 10 per cent tax on state banks, and for a bill embodying the pledge which declares that the democratic party holds to the use of both gold and silver as the standard money of the country.

The people understand precisely what delay in the matter means. There is evidently a purpose on the part of some of the democrats of the house to hold these measures back until just before congress adjourns, or until late in the session, and then go before their constituents with the claim that they have done their duty in the matter. But action three or four months from now will be too late, and the people appreciate this fact so keenly that we are surprised that any congressman who is in touch with those of his constituents who are not after office should undertake to play the game of delay in order to run with the cuckoo element and with the people too. It is a game that will fail utterly so far as the people are concerned, and congressmen who are fascinated with it may as well make up their minds to take their places with the cuckoo element and against the platform. They have their choice now. and they may as well make it boldly and finally.

Meanwhile, Speaker Crisp has it in his power to recall the party to itself, and by doing so he will win a popularity that can be won in no other way, and that even the most successful man might envy. He is bold; he is firm; he is a democrat. He will seize the occasion that presents itself to save the democratic party and satisfy the people! Such is our estimate of the speaker! Such is our confidence in his power!

The Recent Collapse in Prices. "An attempt has been made in certain quarters," says The New York Evening Post, "to prove that the great decline in the price of wheat is due to the great de cline in the price of silver.". On the strength of this statement, for which The Evening Post is alone responsible, its editor sent out a reporter to get the opinions of certain obscure traders in wheat in the metropolis.

It is sufficient to say of the views of these dealers that they hit on every reason save that which stands out clear and plain and simple before the eyes of every man who is not blind, or dull or abso lutely ignorant. We are not at all interested in the views of the wheat dealers, but we are interested in the "attempt' which The Post has uncovered and exposed "to prove that the great decline in the price of wheat is due to the great de cline in the price of silver." The Post would do a great work if it were able to point out those who are engaged in such an attempt, but it is to be feared that the whole scheme exists in the gifted imagination of Mr. Horace White, who, no doubt, sees in the whole business situation the symptoms of a conspiracy on the part of the "silver lunatics" to remonetize the white metal. But the truth is that no conspiracy, however powerful or widespread, could promote or effect as complete a fulfillment of the predictions of democrats and bimetallists as has occurred in this country during the past two years.

We can assure The Evening Post, how ever, that the great decline in the price of wheat is not due to the great decline in the price of silver. There may have been expressions lightly employed which are calculated to create such an idea on a mind not too acute, but the whole contention of bimetallists since 1873 has been that the increased demand for gold has increased the value of that metal. and that this increased value is accurately and infallibly measured in the decline of silver bullion and the products of human labor, especially wheat and cotton.

So far from the decline in the price of wheat being due to the decline in the price of silver, the decline in both commodities is due to the increase in the value of gold. It must appear, then, that there has been a recent and a sudden rise in the value of gold. What is the visible cause of it? Simply this, that the financial world has been put on notice that the currency of India is to be placed on a gold basis. We presume that The Evening Post is the last journal in the world to seek light on this sub-

ject, but the information is at hand. Heretofore it has been supposed by nearly everybody that the "Indian experiment" was a tentative one. The Constitution did not fall in with this supposition, but the idea was that events would compel the Indian government to eopen its mints to silver. On the 13th of February the news was cabled over the world that Sir William Vernon Harcourt, chancellor of the exchequer, re plying to a question, declared that the Indian mints would not be reopened to the free coinage of silver; that a minimum rate would not be readopted for the sale of rupee paper; that an import duty would not be levied on silver, and that the present policy of the govern-

ment would not be changed. Now, these statements can only mean that India's recent changes are not an experiment, but part of a definite policy, and that policy is the substitution of the single gold standard for the single silver standard. The financial world had knowledge of this policy even before the definite announcement was made in parliament, and with this knowledge came a rise in the value of gold and a conse quent decline in the price of silver, wheat and other commodities.

For the information of The Evening Post, therefore, we desire to say that when it is confronted by the statement that a decline in the price of means a decline in the price of wheat and other commodities the meaning of it is that the same cause that brings heavy responsibility resting on his shoul- about the decline of silver also brings

about a decline in wheat. Silver, being a money metal, and used as such by more than half the people of the earth, is a more accurate measure of the value of gold than any other commodity. When gold increases in value the fact is registered first in the decline of silver.

A Democrat at Last.

The president has disappointed the prophets who predicted that he would wait several days longer before nominating a justice of the supreme court. He has acted with promptness and decision, and on yesterday he sent to the senate the name of Senator White, of Louisiana.

The present nominee is free from the objections urged against Peckham. He is a native of Louisiana, and is in the prime of life, being just forty-nine years old. He is a man of culture and has a fine reputation as a lawyer.

Senator White served in the confederate army, was elected state senator in 1874, was appointed associate justice of the supreme court of his state in 1878, and was elected to the federal senate to succeed James B. Eustis. His term will expire in 1897. It is needless to say that he is a democrat.

The president has acted wisely in going outside of New York in this instance. The nomination can provoke no factional opposition in that state, and, in fact, there is nothing in it that will divide democrats anywhere. Senator White is an able jurist and a man of high standing. His nomination was, very properly, confirmed at once.

The president and the country are to be congratulated upon the satisfactory ending of a very unpleasant episode.

At last, by fighting for it, and fighting hard, the democrats of the senate have had the pleasure of voting for a democrat to fill the vacancy on the supreme bench.

A Significant Cartoon.

Six months ago The New York World and other papers who believed that Mr. Cleveland was bigger than the democratic party, took a roseate view of everything. They saw nothing but sunshine and calm, and laughed at the slightest suggestion of dangerous rocks and breakers ahead as a result of ignoring parts of the democratic platform.

A full page, highly colored cartoon in colors in last Sunday's World is full of significance. It is entitled "Who Is the Jonah?" and represents the administration boat containing Mr. Cleveland and his cabinet. The boat is lurching fearfully among the breakers between projecting rocks, labeled "Treasury Deficit," "The Van Alen Error," "Hawaiian Blunder," "Hornblower" and "Peckham" and other such.

The faces of the luckless crew exhibit consternation, if not despair, but Mr. Gresham, perhaps, is the most terrorized man in the crowd.

This cartoon, viewed in the light of recent events, contains a volume of meaning. Its publication in The World shows that democrats and democratic newspapers have been thinking to some purpose in the past few months. They are no longer willing to declare that the outlook is altogether lovely and serene, and they are as active in putting out danger signals as they were in ridiculing them only a short time ago.

All of this is encouraging. Eternal vigilance is the price of democratic success, and the democrat who closes his eyes and fails to give warning of the rocks and shoals ahead makes a very poor sentinel. But what is the answer to The World's question in regard to the occupants of the administration boat? "Who is the Jonah?"

A Good Man Gone.

The death of the Rev. Dr. W. D. Anderson removes from his wide field of usefulness a man who was widely known and generally loved by his thousands of friends and acquaintances throughout the state.

Dr. Anderson left the University of Georgia to enter the confederate army. He made a fine record as a soldier, and after the war the people of Cobb county held him in such high esteem that they elected him to the lower house of the general assembly. He served several terms and was one of the leaders of the house in the stormy days of reconstruction. He came within a few votes of being elected speaker, and his talents and popularity caused his friends to feel confident that he was destined to rise high in public life.

But he felt a deeper interest in religion than in politics, and believing that he was called to preach the gospel he entered the Methodist ministry and was an active worker for the cause of Christ until his death. He held some of the best appointments within the gift of his conference and ranked among the leading divines of his denomination in the state. He was a strong, brave, gentle, lovable man, with a great heart and a wise head. He will be missed and mourned in many homes, and the sympathies of all will go out to his bereaved family.

The Law of the Case.

The Constitution has insisted from the first that no principle of international law, no precedent and no traditional policy would justify our government in interfering with the present order of things in Hawaii.

The statements of President Dole, corroborated by others, show that Secretary Gresham's ill-advised attempt to overthrow the provisional government has menaced Hawaii with disorder and bloodshed for months past. But for the firmness of President Dole and the American residents who are backing him, and the discreet course of Minister Willis in failing to earry out his instructions the fairest islands of the Pacific would have been given over to all the horrors of civil war.

This has been our view of the situation all along, and now Professor Theodore S. Woolsey, the eminent law writer, comes to the front with an article on the same line in The Yale Review. He says:

What is the status of this provisional Does its provisional character make it any the less a sovereign state? Granting that its origin was owing to a wr.ngful act on the part of the United States, is its subse-quent legality impaired? Both of these questions must be answered in the

The intervention of France in our revolu-tionary war was technically illegal, was an act of war, but the recognition of the Unit-ed States was not thereby invalidated. Our recognition of Texan independence was wrong, in being likewise premature, but no one questioned the legality of the Texan status. Not only our recognition of the status. Not only our recognition of new government in Hawaii, not only subsequent act, proves its sovereignty. We have accredited a minister to it, we have received a minister from it. Nor does its avowed provisional character all. avowed provisional character alte avowed provisional character its or its rights. If a government is organized to secure certain objects, who shall decide when and whether those objects are achieved or are impossible, or what other objects shall succeed them? Is the dictum that the object for which this provisional and that, therefore, ipso facto it has le psed, and the former government reverts, one which it is competent for any other than itself to pronounce? Surely not, otherwise its sovereignty would be a very qualified article. What this new government shall do with its own, what it shall develop irto, whether it shall withdraw in favor of the deposed queen, or form itself into a permanent republic is a matter purely for internal decision.

then, what should be our attitude toward the provisional government of Hawail, if we observe our own usage and rules of international law, be but one answer. Its rights are the same our relations to it are the same, as in the case of its predecessor. To restore the queen by intervention would be a fresh wrong. Any forcible interference in the afwrong. Any forcible interference in a plebi cite whose result should determine in whose hands the government shall reside, would be illegal. For Hawaii is a sovereign state. One wrong cannot be cured by another. Our duty is simple. It consists in keeping our hands of

There is the whole case in a nutshell. Admitting, for the sake of argument, that the overthrow of the queen was wrong, have we the right to commit a fresh wrong in order to put her back on the throne? Hawaii is a sovereign state What can we do but stand aside and let her alone?

Coming to Town.

It is whispered around that Eugene Field, the western poet and humorist, is making his way to Atlanta by easy stages, and even the whisper has se Stanton to tuning his mandolin, and incited those who love good fellows to get together in little caucuses and devise some plan or other to make the poet feel at home when he comes.

To Old Kaintuck.

The Constitution heartily felicitates the rock-ribbed democracy of old Kentucky in the democratic victory which resulted in the rejection of Peckham.

While it is true that the two Kentucky senators preferred to hearken to the patronage siren rather than obey the instructions of those who had conferred upon them the high offices they hold, yet the instructions, boldly given, strengthened the hands of those democratic senators who had chosen to resist all the influences brought to bear on them and to oppose the effort to reward mugwump

Kentucky and the Kentucky brand of democracy were victorious. Long may they both live to enjoy future victories! Senator White, of Louisiana, is a south-

ern man and a democrat, and not to be compared for a moment with such men Hornblower and Peckham. The Transcript can't understand why Boston financiers should want to "revive" the silver question. But The Transcript will understand all about it after a while.

The New York World ought to put a tag on the administration Jonah. Who is he? We hope Mr. Pulitzer understands that t is a very serious matter for the admin-

istration ship to have a Jonah on board. Perhaps it's Gresham? It is to be observed that India's gold poli-

was never definitely announced until Gresham sent word to Europe that this country had no further use for an international monetary conference.

EDITORIAL COMMENT.

Says The New York Sun: "We guess that the number of novelists or story writers in the United States cannot be less than 25,000, about one-half of them women and the others men. We must suppose that more than 1 per cent of them 'make some kind of a living' by their arduous brain work. We believe that fully 10 per cent of them must make a good enough living by it, and that at least one in one thousand gr wealthy from it. ABOUT THE GOVERNORSHIP. The Entonton Messenger has the follow-

"The sentiment in Putnam in favor of Gereral Evans for governor is remarkably strong and spontaneous. There are some Atkinson men, but not many. Perhaps the candidacy of ns man for office was ever received with more favor in Putnam than that of General Evans, unless the candidate halpened to be a Putnam man. So far as can be observed, the county is more than four to one for Evans. The supporters of General Evans have decided to organize an Evans club. The gentlemen at the head of this movement are among the best citizens of the town and county, and they are young men, middle aged men and old men. eral Evans, it seems, appeals strongly to all ages, and although Mr. Atkinson is being run as a young man's candidate, it is noteworthy that all over the state the young men are supporting General Evans."

The Hapeville Picayune has this of the gubernatorial race: "The gubernatorial campaign has been fairly opened, and we anticipate some lively times before the nomination. General C. A. Evans, the people's candidate, is far ahead of his opponent, Colonel Atkinson, General Evans has faithfully and fully served the state, the democratic party and the people in peace and war. He stands square-ly by the best interests of the citizens of the state, and believes that they can be preserved through the principles of the democratic platform. He will be our next governor.

PERTAINING TO PECKHAM.

New York Recorder: President Cleveland will have to try again. And again he will fall if he does not come down to the basic principle on which this government rests, that not the will of a man, but the will of the people, must be carried out. How many lessons of this kind has he to learn?

New York Herald: It is to be hoped that New York Heraid: It is to be hoped that the country has seen the end of the unseemly wrangle which has been kept up for months over the appointment of an associate justice of the United States supreme court. That this high judicial office should be dragged down into factional politics is creditable neither to the executive nor the senate and is little less than some calous to the country.

Philadelphia Times: This is a kind of fight in which the president cannot yield and from which he is not likely to shrink. He may be expected to follow this nom tion by a still stronger one. Pittsburg Dispatch: From the beginning this entire question of filling the vacancy on the supreme bench, caused by the death of Justice Batchford, has been productive of revelations that are little short of disgraceful to the parties most interested. This assertion had a tendency to increase my intellectual appetite for such a costly morsel. My son has a great fondness for the collection of odd literture, and on leaving the city recently, entrusted to my keeping his library, many scrap books, that to him are valu and to any one who is so fortunate as to have access to this sanctum—sufficient to beguile many hours of "ennui." Among these jewels, which I am keeping with jealous care, I have found this book; also "Historical Collections of Georgia," and "Statistics of Georgia," by Rev. George White, late rector of Calvary church, in

What a contrast between the two books. Dr. White, whom I had the honor to know personally, wrote plain, simple facts, in a style so attractive that any intelligent child would delight to read them. Money is cheap, material is cheap and la-Money is cheap, material is cheap and labor anxious for employment at fair wages. The general pian of the excellent bridge at Forsyth street would suit this situation. The damage, if any, to private property could be fairly assessed and being paid made part of the cost of the bridge. The enhanced values of property along the line from the First Methodist to Trinity Methodist church would during the life of a fifty year bond add to the city's treasury in taxes more than the face of the bonds year bond and to the city's treasury in taxes more than the face of the bonds issued to do the work. The street railroads using the crossing should also pay in rent a fair share of the annual interest on the cost of the bridge. The

Let us have a united effort in favor of the immediate consideration of the early construction of a bridge at the Whitehall crossing.

Our teachers who give us the gospel are not always in the current with the affairs of the world. It seems to me that the doctor has adopted this text a his motto in preaching the gospel. The

thing is right and true, but whether his sensational sayings will win for him a large congregation. The doctor, you know, upon sensation. It is just as necessary to his existence as the air is to us.

"But, I must say that his sensational sayings this time have won the deserved rebuke of every honest plumber in the city. "As to the plumbing business generally, some of the best people in the city are connected with it. Their characters are absolutely irreproachable. These men are losing money daily. Their wages have been reduced on account of the small margin in the business at the present time. Some of the largest firms in Atlanta have been compelled to close their doors. Still the people think that they are coining money, like the learned divine, they know not whereof they speak."

He Jumped the Track.

Mr. J. B. Bowen was in a rage. "Dr. Hawthorne," he said, "has no right to make such a charge against my profession. For many years I have been in the profession and have always tried to be nonest and upright in my dealings with all men. I can hardly find words to express my opinion of a man who holds such high position as the doctor does and who will stoop so low as to slander a hardworking man. As Sam' Jones says: 'He's run out, just like a well that's dried up, with nothing but the mud and slime left.'

"My profession is made up of honest mer and they are hardworking men. One thing I can't understand is why the eloquent doctor in a sermon about society life and Lewis Redwine and Harry Hill should jump charges against the plumbers. Now, possibly the doctor had reference to the plumber who it is said stole whisky from Colonel J. W. Echols's cellar some time ago. That is a bare possiblity. But that plumber was not born or raised in Georgia.

"Well, as far as the plumbers of Atlanta are concerned, I defy Dr. Hawthorne to get a lick of work from them. Hereafter if he wants any of that kind of work done he will have to go out of Atlanta."

Mr. Butcher Talks. "The plumbers all over the city," said Mr. A. R. Butcher, president of the Atlanta Plumbing Company, "have read that sermon, and it would not do for the eminent divine to hear the remarks that have come to my ears today. Such a stream of indignation I have never heard. Of course we all respect the position Dr. Hawthorne fills We hold the calling of the ministry sacred, but when a man so defiles himself as this man has, he cannot expect to meet with anything else than the utmost disgust. The people have enough of Hawthorne, Now, I would think from the way that the gentleman jumped on us that he has been cut out of a job reading his burial services, since it is an acknowledged fact that the modern method of sanitary plumbing has done more to decrease the death rate and prevent the spread of disease

than anything else. Yes, the doctor has been cut out of some funeral fees. "Perhaps the gentleman had one of his water pipes to burst on him, and he is sore over having to pay some poor plumber \$1 for tramping out to handle the ice-cold pipes. There is no saying how many times the collector called on the gentleman. At any rate if the plumbers are to be exterminated, may the good Lord bunch us together far away from such saints as Dr. J. B. Hawthorne.

Mr. David W. Yarbrough was in a volcanic mood. Some of his utterances were

"From such inflictions as Hawthorne's." he said, "may the good Lord deliver us. If it were not for the fact that the doctor occupies one of the most prominent pulpits in the city I would say that his charge against our profession is an unmitigated lle. I don't mince my words. I am an impugn that honesty he does it at his peril. I have no words to express my contempt for such a silly, shallow, socialistic fraud; a miganthrope of the most distinctive type, who, having soured upon himself, now vents his vile spleen against all honest men. The doctor's days are numbered; like the grass of the field will he wither away, and the places that know him now will soon know him no more forever, for he will be buried under the everlasting contempt of all good men. And the Lord speed the day. By the way, the doctor howls out against society and sports and all such. I notice that he is a leading member in the Georgia Fox Hunters' Association, and while he is sitting cross-legged in his comfortable clubhouse or dashing across the country on a spirited steed, we, whom he deigns to call 'thieves,' will be quietly earning our daily bread. The doctor is a fraud and a sensational monger of the most severe type. But, as I said at first, if it were not for the fact that he occupies a prominent pulpit, I would call him, or rather his charge against us an unmiti-

Mrs. Felton His Match.

"I can't see why," said Mr. H. Franklin, that the people go to hear such wild talk. Hawthorne is a bully. Under the cloak of the gospel he is attacking everybody. I am not well enough versed in language and epithets to answer the gentleman. I can't make my words as strong as I would wish. But Mrs. Felton is a match for him, and so is Colonel Bennett, of South Carolina, who everybody knows showed him up in the right light some years ago. In my opinion a pure man, a man who truly has at heart thet eachings of our Savior, and who abides by the moly precept, 'love thy neighbor as thyself,' would not make such ranting charges or use such wild language in the pulpit.

Thus the talk goes. Some of the real estate men were also very indignant and expressed themselves in emphatic terms. A Frenchman Defends His Country.

The minster, Hawthorne, as I read in your valued paper of today, made a speech on yesterday in his place of meeting and said: 'Go to Paris, which is aptly called "the Corinth of modern Europe." There you will find a people, who, though polite, intelligent, witty and brilliant, have no faith in God and moral government-a people whose on. is social libertireism, and whose supreme aim is to find amusement. "If all the thieves were put into the chaingang tomorrow it would make gaps in the business world too fearful to contemplate. It would wipe out Wall street; it would annihilate the grain rings, the meat rings and the whisky rings; it would destroy half of the manufactories and shut up two-thirds of the brokerage offices; it destroy half of the manufactories and shuttup two-thirds of the brokerage offices; it would suspend half of the waterworks, cancel a majority of street paving contracts and utterly exterminate the plumbing business. It would thin the ranks of legal and medical fraternities, take thousands of insurance agents from the field, shut the doors of real estate offices and so reduce the representation in congress that no quorum could be obtained until after the next election.

"They tell us we must not cheat our reighbors it is true. Our streets have the great placards when I seft Paris that Dr. Dozier have made a cure for all the diseases. A chemist informs me that the cure is a humbug. The Dozier he makes much money from the poor people who buy his cure for 5 francs. But, I hear nothing in my church denouncing of him, though my teacher, he lives not in the glass house, for there is no interest he has in the medicine patent. He never talks of the close of the door of the real estate man, but he has no reason for silence that he is buying has no reason for silence that he is buying the real estate. I fear my teacher he is in-corrigible that he is not, what you say, sen-sational. The Hill and the Redwine do not sauonal. Miss Melville has always been a big favorite in this city and whenever she comes to Atlanta she is always well received. The part of Mrs. Nora Clover, as assumed by her was a charming and admirable piece of work. Her acting was complimented upon all sides, and she deserves it all. Mr. James Green, a very clever actor, did the roll of Bill Spykes, a tramp, in a manner which caught the house. His specialty with Miss Lillie Durham had to be repeated. Wheat Resumes Its Downward Course. Cotton Waits for That "Some-thing" to Turn Up.

NEW YORK. February 19.-Wall street rarkets were quiet again today. As usual, of late, the Industria's monopolized whatever little speculative interest there was. This is clearly seen when it is stated that the total transactions footed up to 151,000 shares, and of this small amount American Sugar figured for 55,000. Whisky for 28,000 and Chicago Gas for 20,000 shares. Burlington and Quincy, which was the most ac-tive railway stock on the list, was traded in only to the extent of 7,600 shares. The comparative activity in the Industrial stocks was due to advices from Washington that the senate subcommittee on finance would report in favor of the house sugar chedule. At the same time firms with Washington connections were heavy sellers of sugar stock, under which the price receded 1% to 77%, while the preferred fell 1¼ to 81¼. Whisky had a sympathetic de-cline of 1¼ to 26¼. Chicago Gas was forced down from 63¼ to 62½ and United States Rubber preferred from 83 to 82. Chicago Gas was weakened also about reports of the passing of the spring dividend. Later on, when 1% was bid for the next dividend the stock developed a little more strength. The railway list was neglected and changes except in one instance were merely fractional. Missouri Pacific sold down 1/4, Louisville and Nashville %, Burlington and Quincy % and Rock Island 11/4. In the case of the Burlington and Quincy sales were, made by sellers at 60, 1% below the price in the regular way. Near the close Sugar rallied rapidly to 78½ and this had a tendency to stiffen the whole list. The rise in the sterling exchange had little, if any, effect, although it was conceded that if the strength continued shipments of gold are likely in the near future because of the searcity of bills. American Tobacco at-tracted some attention, the stock rising 2 to 74. The rise was ascribed to manipulation. The net changes in the general list show losses of \%@1\%2 per cent for the

market closed barely steady, after a feeble rally in Sugar had spent its force. The room traders were responsible for the spurt in Sugar and their operations were based on an advice from Washingfon that the Sugar lobby will try to kill any bill that does not give protection to the refining interests. Gas refused to rally with the remainder of the list and the Cammack party continued to sell in spite of inside support on the way down. Rhode Island was the strongest of the Grangers, the buying of the stock was due to the report that a favorable settlement with the Minneapolis and St. Louis had been made. The shorts were nervous in Chicago, Burlington and Quincy, owing to the scarcity of the stock. Boston houses were liberal buyers at every concession. Western Union continued to command inside support.

Arread Violett & Co.'s Cottos Letter.

By private wire to J. C. Knox, manager.

NEW YORK, February 19.—Last year, beginning with November and continuing for five months, the English came to the rescue of the Amer.can spinners by staying out of the spot market on account of the operatives' strike there, and thus removing the former as a competitor for American cotton, enabling the American consumer to get his cotton at a cheaper price than had the spinners of Great Britain taken their normal consumption, which doubtless they would have done without the labor troubles referred to. We now find, and have had for some time, the situation entirely reversed, as Europe is taking, Mr Ellison says, her maximum consumption, while trade in this country, the eastern spinners say, only permits of their taking cotton sparingly, and whether the situation justifies it or not there are rumors of shutdowns and reductions of wages, the practical result of which is to leave the southers: spot markets largely to the English and continental buyers. The overland movement to the mills last week was only 7,000 bales, against 17,000 last year, and it will doubtless be in the same proportion this week. A light movement of this kind, however, assists in bringing a much smaller amount of cotton into sight weekly, and therefore we estimate the total amount in sight this week at 70,000, against 104,000 this week last year. It is all very well to have bullish statistics, but it does not seem to bring the spot buyer into the market, which is the all-essential at the moment. The excess of supply is in Europe and not in this country, and as the American stocks at the ports and interior are diminishing very rapidly it shows that the cotton being exported from this country is the result of purchases made some time since. The exports on Saturday were 15,000 bales, against 8,000 in port receipts and the exports today are 33,000, against 16,000 port receipts. We find that at the end of the second week in February last year they were 438,894, a reducti

Hubbard, Price & Co.'s Circular.

Hubbard, Price & Co.'s Ctrcular.

NEW YORK, February 19.—Liverpool was hardly as good as expected today. It opened at 1-64d advance on Saturday night's quotations, but lost it and closed 1-64d lower than the figures of last week. The New York market opened at about 3 points decline, and through sheer inanition by 1 o'clock had declined 2 or 3 points more and was 5 to 6 points under Saturday's prices. The principal feature of the trading has been the transfer of March contracts into May at a current difference of from 14 to 15 points. This would seem to be almost completed. New Orleans receipts for tomorrow are estimated at 5,500 to 7,000 bales, against 8,762 last week and 8,909 last year. Receipts at Memphis are 747 bales, against 1,138 last year. Houston receipts are estimated at 1,100 bales, against 2,738 last year. St. Louis receipts are 507 bales, against 1,227 last year. Southern telegrams do not indicate that any increase, in the movement is likely, and in most cases scout the idea that the bad weather has had any material effect in retarding the movement. A canvass of the fertilizer trade in Baltimore is reported to indicate that business is bad and that the output of fertilizers is less than 'at the same time 'ast year. This is confirmed by advices from fertilizer distributors further south. Spot sales in Liverpool today were 8,000 bales, which is smaller than had been anticipated. Silver in London is firmer. Aside from the features mentioned above there is very little of interest to report with regard to the cotton market. There is hardly any pressure to sell, but at the same time the utter absence of demand, both speculative and consumptive, leaves the market to a certain extent at the mercy of the bears, who embrace every opportunity to chip off quotations. Thus far, however, their efforts in this direction have not provoked any liquidation and do not seem 'Ikely to unless receipts increase. Nothing occurred during the afternoon to disturb the dullness prevailing in the cotton market and closing pric

### THE CHICAGO MARKET.

CHICAGO, February 19.-Wheat resumed its downward course today and despite the efforts of the bulls, aided by news that was for the most part encouraging, to prevent a decline, closed %c lower than Saturday, and within %c of inside figures. The open-ing was quite firm and for a few minutes it looked as though there was good material for an advance, but upon the appearance of large selling orders the undertone became weak and prices sagged off. May opened 4c higher, at 594c, ranged between 53% and 57%c, closing %c under Saturday at 584ce

by% and 57%c, closing %c under Saturday at 58%c.

Corn sympathized with the weakness in wheat. The bulge of Saturday was a sentimental one and prices today met with no support. The opening was firm, due to an advance at Liverpool, but there was no stability to the market and very soon values gave way. May ranged between 37%c and 36%c, closing at the inside, a net loss of %6%c for the day.

Oats received a little grain of steadiness from the visible supply figures. Otherwise the tone was similar to that exhibited by wheat and corn. Cash oats were steady; May closed %c lower than Saturday.

The volume of trade in hog products was light. The opening was steady at slightly lower prices. The weakness in wheat later caused a weak feeling and consequent decline. At the close May pork was 15c lower than Saturday; May lard 2½c lower, and May ribs 10%12%c lower.

There is a demand for cargoes of corn near at hand, while there is not much inquiry for the more distant deliveries. Liverpool—Wheat at the opening was firm, but not active; corn, strong. Lester sold more wheat yesterday than anybody else, presumably for Cottrell. Total clearances at all ports—wheat, 75,300 bushels; flour, 26,000 barrels; corn, 125,000 bushels.

Pritchard & McGourkey, of New York, say: "The crowd here has been selling on your decline, but as offerings are becoming light, any advance with you will make

excellent buyers here.' A Minneapolis dispatch yesterday says: "All the Pillsbury mills started up this morning and now two-thirds of the milling capacity of Minneapolis is in operation."

New York wires: "Second cables on wheat lower; no export business at all; exporters selling."

Milwaukee reports an active demand there by millers for No. I northern wheat.

In ten minutes all was sold at 4%65c. over the May price in that market. New York reports twenty loads of wheat taken for export there yesterday.

Primary receipts of wheat yesterday, 250,-000 bushels, against 376,000 last year.

Minneapolis and Duluth receipts of wheat yesterday, 219 cars, against 523 last year. Provisions opened easy and sold off on scattered selling, but soon firmed up on buying of pork by Swift, Jones & Stiles, and Wolff.

The volume of trade is very light and there seems to be few orders in the pit. Ae the market now stands, a large order would move the market either way.

Several years ago, before he entered the ministry, he was a member of the Georgia legislature and was elected speaker pro tem. of that body. The announcement of his death will be read with profound and universal sorrow. His friends are scattered all over the coun and they mourn the passing away of an whose place as a minister, a parlia-

Sketch of His Life. Dr. Anderson was one of those fortunate who win distinction in every path of

He was the son of Judge George Ander-son, an eminent jurist who died at an early age at Spring Place, in Murray county, while holding a session of the superior

court.

Entering the University of Georgia, Dr. Anderson graduated from that institution in 1861. On account of the fact that he had been a student for only a short while, he was denied the first honor but was given the second honor with the valedictory. He was a member of the Demosthenian So-

clety.

Immediately after graduation and before his majority, he enlisted as a private in a South Carolina regiment. He served all through the war and was twice severely wounded. One of the wounds, which attested his gallantry and devotion to the cause which he espoused, was on the wrist this right arm.

In the opinion of a well-known Georgian, braver man than Dr. Anderson and one more devoted to his duty never lived."

After the war Dr. Anderson began the study of law at his home in Marietta, Ga. He was admitted to the bar and began immediately to achieve faine and fortune in his indical circuit. Such was his nonular.

mediately to achieve land was his popular his judicial circuit. Such was his popular fty, that without solicitation, he was elected to the Georgia legislature in 1868 as the representative of Cobb county. It was on the floor of the house that he developed his wonderful powers of logic

and secured his reputation as a parliamentarian. During his second year, by rea-son of his prestige and ability, he was elected speaker pro tem. of the house of

elected speaker pro tem. of the house of representatives.

While occupying this important office, which he filled with satisfaction and fidelity, he was called to preach the gospel. Without delay or hesitation he immediately sent in his resignation and began to prepare himself for the ministry.

He was admitted to the North Georgia conference and was first assigned to pastoral duty at Elberton, Ga. His rise in the ministry was equally as rapid as it was in the law and in the legislature of the state. In speaking of him yesterday afternoon, a minister of ripe experience and approved scholarship, observed, "he was one of the wisest men I ever knew. Whether in the legislature or in the conference he had few if any equals. In debate he had all the readiness and approses of Charles James Being elected to the general seafers.

readiness and aptness of Charles James Fox."

Being elected to the general conference of the Methodist church which met in Richmond, Va., he immediately pushed his way to the front as one of the ablest members of that body. Such was his recognized ability as a parliamentarian, during his first term, that, on one occasion when a question of parliamentary law was being discussed, Bishop McTyerie, who presided, called a halt in the proceedings, remarking to the conference that it was rather an intricate question. Turning to Dr. Anderson, the bishop said: "I would like to hear from Brother Anderson on this point. He is an able parliamentarian."

Dr. Anderson was elected to the next general conference in 1890, being made the chairman of the committee on episcopacy, the most important in the practical operations of that body. His health during the sessions, was quite feeble and he was prevented from attending all of the meetings of the conference. His influence, however, was felt and his views consulted on all questions affecting the welfare of the church.

A short while ago Dr. Anderson was elected chairman of the north Georgia delegation to the next session of the general conference which meets at Memphis, Tenn. As an evidence of his popularity he received, for this position, 175 votes out of a total of 266.

ed, for this position, 175 votes out of a total of 205.

Dr. Anderson at the time of his death was president of the legal conference, which has only been presided over by able and learned men. This position he honored with exceptional ability as one of the very lishest in the gift of the church. He was president of the board of trustees of Wesleyan Female college and also secretary and treasurer of the Widows' and Orphans' Association.

He has also occupled positions on the board of the LaGrange Female college and that of Emory college. He received his degree of D.D. from this institution. In the pulpit, on frequent occasions, Dr. Anderson reached the zenith of his intellectual power, when he thrilled and overwhelmed his audience by his logic and eloquence, not of words but of thought. His courage never wavered and his will and energy were indomitable. His devotion to duty was one of the most striking of his characteristics. He had the stuff of which martyrs are made, and had se lived in the days of Ridley and Latimer, he would have shown equal heroism and devotion.

At the time of his death Dr. Anderson was the presiding elder of the Oxford circuit.
He was twice married, his first and second wife being the daughters of Dr. Latimer, a highly esteemed planter and physician. As the result of these unions, he has had several children. His two boys, George

Fine-ral Today.

The funeral of Dr. Anderson will occur at hiarietta, Ga., this afternoon at 2 o'clock. It is desired that all of the Methodist ministers who can will attend the funeral. A special rate has been secured, at 50 cents for the round trip, and the car will leave the passenger depot this morning at 8 o'clock.

At a meeting of the Methodist ministers, which was held yesterday morning, appropriate resolutions in honor of the memory of Dr. Anderson were passed, in addition to a message of condolence which was sent to the bereaved family.

Harry Alexander Delivers an Oration at the University.

Athens, Ga., February 19.—(Special.)—This is anniversarian day—a holiday in the university and a gala occasion for the people of Athens. Ninety-three years ago today the Demos-thenlan Literary Society was founded, and every year since, its birthday has been cel-

ebrated with much eclat by the student of the university and the citizens of the Classic City.

Today Mr. Harry A. Alexander, one of the brightest members of the class of '93, de-

brightest members of the class of '93, delivered the oration of the day.

Mr. Alexander chose as his theme "Education in Georgia."

The chapel was filled from the pit to
gallery. All of the young ladies of the
Lucy Cobb institute and the Home school
were present. The music was furnished by
the University Orchestra Club.

The oration was pronounced by a great
many of the professors and students as
being one of the finest ever delivered in
the chapel by a student.

After his speech, Mr. Alexander was the
recipient of the warmest congratulations,
and the stage was covered with the floral
offerings of his friends.

A bright paper has just made its appearance. It is called "The Athenian," and is conducted by the pupils of the city public schools. It is a four page, four-column monthly, teeming with the brightest and

monthly, teeming with the brightest and most interesting school news.

The first page is filled with a thrilling and dramatic story by Master Harry Hull, entitled "A Tale of the Sea." It deals with some very blood-thirsty pirates who are cleverly outwitted by a lad named Duncan McDonwald. The paper says editorially:

"The Athenian is not a meddler in politics, but we want it understood that we are for Evans."

Newsy Notes. A letter was received by Clerk of the Council A. L. Mitchell this morning from Mr. John Nottman, the city attorney in the New York waterworks litigation, saying that the written briefs would be submitted to Judge Cullen on March 2d, and that the case would be decided soon after that.

Mr. Nottman's letter says that nothing has developed in the case to destroy his absolute confidence in the city's final victory, and that the delay means nothing antagonistic to the city's interests.

News of the death of Rev. W. D. Anderson, which occurred in Marletta this morning, reached the city today and caused deep sorrow here.

Mr. Anderson was for four years pastor of the First Methodist church here and he was greatly beloved by all who knew him. A number of Athens citizens will go to Marletta to attend his funeral.

The secretary of the interior will be in Athens the latter part of the week. On Thursday night Mrs. Ferdinand Phinizy will tender him and his charming wife an elegant reception at her beautiful home on Milledge avenue. Friday evening Dr. Harry White will give a dinner to Mr. Smith and the faculty of the university.

The University Glee Club for the season of 1994 was organized today, with the following officers: James C. Mell, president; of 1884 was organized today, with the fol-lowing officers: James C. Grocer says: -"I hire clerks who can sell the goods that I tell them to sell - and

tell them to sell the goods on which I make the most money. If they can't do it, I won't have them. That's what I hire them for." This is an actual fact related by a grocer to our salesman-and it's a common fact; we have it daily. So, when they tell you that some wash, ing-powder is "the same as" or "as good as" Pearline, it's because it pays a larger profit. Too large, altogether, if clerks can be hired to make people take things they don't want and know nothing of, instead of a tried and proved article like Pearline.

## Ex-Gov. Bob Taylor.

You would hardly think that as strong and fine looking man as Ex-Gov. Taylor, of Tennessee, would suffer with Dyspepsia. But he does. In fact, nearly everybody has indigestion or dyspepsia in some form, and if they are wise, as Governor Taylor and take THE Remedy they can be cured.

Dion Boucleault's Masterpiece-Presented by Governor Taylor says:

"I have had occasion to use your celebrated Dyspepsia Remedy, and find it to be an admirable aid to digestion. Taken before lecturing it imparts a vigor and easiness of feeling which is very desirable. I am convinced it is a first-class remedy for aiding digestion, and reminds me ofthe old couplet:

" 'Good digestion waits on appetite, And health on both,' "especially if Tyner's Dyspepsia Remedy is taken after eating."

A single dose will correct indigestion in five minutes; a few doses will cure the worst forms of Dyspepsia. Price 50 cts per bottle. For sale by all druggists.

AN ATLANTA FIRM SUES AT MACON

It Asks the Court Not to Confirm the Eale of the Oglethorpa Hotel Prop-erty at \$21,000.

Macon, Ga., February 19.—(Special.)—The Mercantile Trust and Deposit Company, of Baltimore, as trustee for the bondhoiders of the Georgia Southern and Florida road, of the Georgia Southern and Fibrian 1983, has again petitioned for the removal of Re-ceiver Sparks or the appointment of a co-receiver. The result of the recent hearing of a somewhat similar petition at Macon is well remembered. The petition was suddenwithdrawn and it is now renewed in a more elaborate shape by Hoke Smith and Dessau & Hodges, attorneys for petitioners. Owing to the disqualification of Judge Bartlett, who was of counsel prior to his ap-pointment as judge of the Macon circuit, the petition was presented to Judge C. C. Smith, of the Ocmulgee circuit, and he has signed an order directing the defendants, the Georgia Southern railroad and the Macon Construction Company and Willis B. Sparks to show cause before him next Saturday in Bibb superior court at 10 o'clock why the petition should not be granted. In asking for the removal of Sparks the petition recites all the old charges as to his alleged extravagance, disqualification, partiality, etc. The petition elaborates upon the charge that the bondholders' commit-tee, of which H. P. Smart, of Savannah, is chairman, has been the special object of attack by Receiver Sparks in his endeavor to keep the committee from accomplishing the object for which it was formed, to-wit: Protecting the interest and enforcing the rights of the bondholder's by foreclosure of the bondholders' mortgage.

An Atlanta Firm's Petition Judge Emory Speer, of the United States court, had a very interesting case before him today in which Hunnicutt & Bellingrath, of Atlanta, were among the principle parties. Mr. Hunnicutt was present personally, with his attorney, Colonel Thomson, of Candler & Thomson, of Atlanta. It seems that the Oglethorpe Hotel Company, of Brunswick, is indebted to Hunnicutt & Bellingrath in the sum of \$1,000.

It will be remembered that the company failed, and the hotel closed its doors and suspended by the surface of th falled, and the hotel closed its doors and suspended business. 'The property cost about \$180,000, the hotel being one of the handsomest and best arranged in the south. There are about \$70,000 of bonds on the property. The matter was brought into the linited. States court and Judge Speer ordered the bronerty sold. Mossers. Alexander dered the property sold. Messrs. Alexander Proudfit and J. N. Tally, of Macon, were appointed commissioners of sale. It has been sold twice. The court refused to confirm the first sale. At the second sale recently held in Brunswick, only \$21,000 was offered for the property. This bid, it is understood, was made principally by bond, holders, about five-sevenths of them being represented. Now comes Hunnicutt & Bellingrath before Judge Speer today, protest against the confirmation of the sale at \$21,000, and say the property is worth much more, and they ask that it be sold again, and offer to give good and sufficlent bond that at the next sale the property shall bring at least \$25,000. Judge Speer will not confirm the sale at \$21,000 provided that Hunnicutt & Bellingrath give a \$30,000 bond in good and approved security, also, endorsed by them personally guaranteeing that the property shall bring \$25,000 and agreeing to be responsible for all damage or injury that might arise. Judge Speer allows Hunnicutt & Bellingrath forty-eight hours in which to give the bond; in other words, the bond must be made not later than 12 o'clock, noon, Wednesday, February 2ist. Judge A. J. Crovatt, of Brunswick, was in attendance today as attorney for the Farmers' Loan and Trust Company, which is trustee for the bondholders.

Bar Memorial Meeting. This morning the bar of Bibb superior court held an interesting memorial meeting. There was a large attendance of lawyers and some spectators. Judge C. L. Bartlett presided, and Mr. W. T. Stone act-ed as secretary. The deceased members in whose memories the meeting was held were: Ex-Judge R. F. Lyon, ex-Judge Charles J. Harris and Colonel R. S. Lanier. Some time ago committees were appointed to prepare proper memorials. Mr. Washing ton Dessau, in behalf of his committee, read a paper on the life and character of Colonel Lanier; ex-Judge James T. Nisbet read a paper on ex-Judge R. F. Lyon and Mr. James H. Blount, Jr., in behalf of his mittee, read a paper on ex-Judge Harris. The reports of the various committees were excedingly interesting and paid high tribute to the abilities and many excellencles of the deceased Eloquent and touching addresses were made by various mem-bers of the bar. Colonel Lanier was the father of the late lamented Sidney Lanier, the poet-musician, and was for about forty years law partner of ex-State Attorney General Clifford Anderson. Judge Lyon was formerly on the bench of the supreme court of Georgia. Hon. C. J. Harris was a member of the legislature, solicitor general and judge of the city court of Macon.

A Military Meeting. The commissioned officers of the Second Georgia regiment will meet tomorrow night at the armory of the Macon Volunteers for at the armory of the Macon Volunteers for a discussion of the general condition of the reximent, etc. Similar meetings were formerly held monthly, but lately they have not been held, and Colonel C. M. Wiley, the popular and efficient commander of the Second Georgia, intends that they shall occur regulary in the future. At these meetings one or more papers are read by commissioned officers on some military subject. At the meeting tomorrow night resolutions will doubtless be passed on the death of Captain Samuel H. Pearson, of the Macon Volunteers.

Commissioners to Meet.

Commissioners to Meet. The county commissioners will hold their regular semi-monthly meeting tomorrow, at they will probably determine whether or not to appropriate \$2,500 as the county's share towards defraying the expenses of draining the swamp. It is expected that committees will be present from the city council and the board of road commissioners. At a recent meeting of the road commissioners they recommended that the county commissioners appropriate \$2,500 for the purpose named.

Sale of Guano. It is the general impression in this sec-tion that more guano will be used by the farmers this year than last season. think there will be an increase of, at least, 25 per cent in the amount used. Parties in Macon today from southwest Georgia say that many families are using more guano than usual in fertilizing corn.

than usual in fertilizing corn.

A Straight Tip.

Today a well-known gentleman gave The Constitution correspondent what he termed "a straight tip" in regard to the Macon postoffice. He says the appointment of a democratic postmaster at Macon will postitively be made this week. The term of Colonel R. D. Locke, the republican postmaster, expired January 20th, one month ago tomorrow. Even if an appointment is made this week it will be at least two weeks before the new postmaster can make his bond and take charge of the office.

A Popular Gentleman.

Judge A. J. Crovatt, of Brunswick, is in the city today on legal business. Judge Crovatt is one of the ablest lawyers and most genial gentlemen in Glynn county. It is very probable that Judge Crovatt will be the next representative from Glynn to the legislature. He will make a strong and influential member of the house.

The city council Meeting.

The city council will hold its regular meeting tomorrow night. Some considerable business of importance is expected to be transacted. The chief interest in the proceedings hangs upon the election of a city marshal. This election has been deferred from time to time, but knowing ones predict that it will occur tomorrow, night. This prediction may or may not come rue. It is possible that there will be only nine aldermen and the mayor present, and it will require seven votes to elect. If Alderman Altmayer returns from New York in time for the meeting tomorrow night and Alderman Harris is well enough to attend City Council Meeting.

then there will be eleven aldermen and the mayor present, and with this number the election of a marshal can be made unless there comes a strong deadlock. Other matters of interest that are looked for is the opinion of the city attorney as to whether a special election can be legally and safely held to fill the unexolved term of Alderman Pearson, and also the report of the expert examiner, Mr. A. Gibson, on the books of the Macon Gas Light and Water Company in reference to the business done by the company per annum.

FRANK LEVERETT STABBED.

The Marshal and U. L. Turner Have a Fight on Entonton's Streets. Eatonton, Ga., February 19 .- (Special.)-Frank Leverett, United States marshal for the southern district of Georgia, was severely cut about the head in a difficulty here yesterday with U. L. Turner, a prominent business man and manager of the Putnam county alliance store. Exactly what brought about the altercation cannot be learned, but it is stated that it grew out of some correspondence which recently passed between the two. Turner met Leverett on the street while in conversation with some friends and approached him about the matter and Turner struck him, having a knife in his hand. Friends interfered and prevented further trouble. The wound, while painful, is not dangerous, being on the back of Mr. Leverett's head and neck. Mr. Turner states that he did not intend to use the knife. He says that he had it in his hand when he struck Leverett. Judge Leverett was able to go to Macon today.

POSTMASTER IN JAIL

A Letter at His Office Was Opened and a Check Abstracted.

Athens, Ga., February 19.—(Special.)—Deputy Marshal A. G. Elder, of this city, arrested on Saturday J. E. Altman, the postmaster at Rehoboth, a small hamlet in Morgan county. A few days since a check Morgan county. A few days since a check was received at that office, properly signed and made payable to Mr. M. C. Nunn, at Rehoboth postoffice. The letter was broken open, the check taken out and Mr. Nunn's name forged on the back of the check. The check was payable to Mr. M. C. Nunn and called for twenty-four dollars.

Mr. Altman is about thirty years of age. He has a wife and five little children, who are, of course, in great distress over the affair. Deputy Marshal Elder brought his prisoner to Athens and lodged him in Clarke county jail until this afternoon when he was removed to Gainesville to await trial in the United States circuit court.

GOVERNOR NORTHEN AT HOME.

He Is Strong with His People in

Hancock. Sparta, Ga., February 19.—(Special.)—The recent visit of Governor Northern to his farm in Hancock brought him in contact with many of his fellow citizens at Sparta with many of his fellow citizens at Sparta during court week. It goes without saying that he met with a most cordial greeting from his old friends and neighbors. Hancock people show a quick recognition of merit. They rejoice especially in the administration of state affairs by our citizen governor. They feel with the people of the state that he was overlooked no minute detail of duty; that in every respect he has made a model governor. Whether he will aspire to wear the senatorial togs or not is aspire to wear the senatorial toga or not is not known here, but his friends here and all over our state are urging him to enter actively into the race. Should he yield to their importunity and do so, the people of Hancock county, mindful of his uniform success in life, and especially of his dis-tinguished record as the chief executive of Georgia, will accord him an enthusiastic support.

Jackson, Ga., February 19 .- (Special. The wooden storehouse on the north side of the public square, formerly owned by J. M. Byars but now owned by Frank Z. Cur-ry, was burned last night. The building was worth about \$600. It was insured for

\$400. The occupants were not insured. Perfect health is seldom found, for impure blood is so general. Hood's Sarsaparilla raully does purify the blood and restores to perfect health when possible. Try it yourself.

WHAT CURED HIM.

Mr. Mezell Tells How His Life Was Prolonged.

Waycross, Ga., February 19.—(Special.)— Josiah Mezell, a veteran of the war of '61 and a citizen of this county, was a consumpperfectly well. Mr. Mezell cured him in a simple way, which proved a remarkable cure in his case. He says: "I was suffering with a terrible cough and was growing weaker and thinner every day when I entered the confederate army. Consumption was rapidly getting the mastery of me. Camp rapidly getting the mastery of me. Camp life exposed me to all kinds of weather, and sometimes I slept on the ground with no blanket to protect me from the cold, damp earth. When convenient, I made a lightwood-knot fire. When a knot was burned to pitch, the fire was extinguished with water. The smoke and pitch vapor arising from the knot were inhaled through may negrify. I kept up this practice until my nostrils. I kept up this practice until when I discovered that I had no cough and was perfectly cured of the disease. I could not recommend this remedy to those who are in the third stage, but in a case similar to mine, it will effect a remarkable cure in every instance."

### TROUBLE FOR JACK

If Mrs. Melinda Thacker-Thompson's Story Is True.

SAYS SHE MARRIED JACK THOMPSON

And That the Man Who Performed the Ceremony Was No Justice of the Peace.

A story of a marriage that was not a marriage was told by Mrs. Malinda Thacker-Thompson to Ballin Ray yesterday when she went before Justice Bloodworth to swear out a warrant against Jack Thompson, who, she claims, basely deceived her.

The female in the case is Mrs. Melinda Thacker, Thompson, herself.

Thacker-Thompson herself. According to her own statement she was married at a period in the past when she was younger and even better looking than at present, but for nearly nine years she has heard nothing of her first spouse. It was not many months ago that Mrs. Thacker-Thompson made the acquaintance of Jack Thoma on. Thompson, according to her own a count, is a well-built, stout, brown-eyed, goodlooking man. It took him just three onths to get her consent to again take on the harness of married life.

For a few days they lived together hap-plly, but it seems that Thompson began to drink, and his drinking caused him to abuse his wife. After he came home in a drunk-en condition several times, Mrs. Melinda Thacker-Thompson told him to go away and stay away; that she did not want to see him again under any circumstances. It would appear that Jack did not relish his dismissal, or if he did, he took care to conceal it. When it began to be whispered about that his wife had fired him, Jack was not long hearing it. Mrs. Thacker-Thompson says that he then put into circulation a counter rumon, which said that she was not his wife and that they had

never been legally married. This thoroughly aroused Mrs. Thompson, and she went before Justice Bloodworth and swore out a warrant charging her recreant alleged husband with a misdemeanor "I met Jack some months ago, and it was about three months after I met him that we became wedded," said Mrs. Melin-da Thacker-Thompson sadly. "He works at

that we became wedded," said Mrs. Melinda Thacker-Thompson sadly. "He works at some iron works, when he works, which is not often. He is a good-looking man, but his eyes, which are brown, look mean. He proposed to me, and I accepted him, and he bought a license and the day was set for the wedding.

"We were married at the home of my uncle by a justice of the peace by the name of Appleton. After we had lived together a very short while"—and Mrs. Thacker-Thompson sighed—"my husband, though he says we were never legally married, began to come home drinking and would abuse me. Of course this was unpleasant, and it became worse. One night he abused me awfully, and my uncle took my part. I told him then to get away from me and to stay away and never seen him since.

"After he left, he began to tell that we weren't married at all, as the man that married us was no justice. I went to where the justice, who said his name was Appleton, said it was, but he wasn't there. I found that the license had never been returned, and I'm going to prosecute him. I will never consent to marry him, and if he has deceived me, he'll have to suffer."

The Genuine and the Sham.

Every good thing has its host of imitators; every genuine article its counterfeits. The imitators always choose the most valuable and popular article to counterfeit, so that when they claim their sham to be equal, or as good, or the same as "so-and-So's," the public may depend upon it that "So-and-So's" article is the best of the kind. The sham proves the genuine merit of the thing it copies and never has this been better illustrated than by the imitations of ALL-COCK'S POROUS PLASTERS.

Allocok's POROUS PLASTERS.

Allocok's Porous Plaster is the standard of excellence the world over, and its imitators in their cry that theirs is "as good as All-cock's" are only emphasizing this fact and admitting "Allocok's" to be the acme of perfection, which it is their highest ambilion to imitate. The difference between the genuine and these imitations, which copy only general appearance, is as wide as that between copper and gold.

The only safe way for purchasers is to always insist upon having ALLCOCK'S POROUS PLASTERS. They are the only perfect plasters ever produced. The Genuine and the Sham.

IN THE COURTS.

Judge Lumpkin and Judge Westmoreland Were in Session Yesterday.
The hearing of the suit of Willingham against Brown was begun before Judge Lumpkin yesterday. Brown is the Chicago man who came to Atlanta and put up a man who came to Atlanta and put up a number of houses in various portions of the city under the auspices of a syndicate. Without any warning one morning Mr. Brown had taken himself to parts unknown, where he has been careful to femain. The suit involves some of the houses.

Judge Westmoreland disposed of a number of criminal cases yesterday, after having an experience with a juror who was conscientiously opposed to serving on a jury. The juror said that the Lord had taught him not to judge his fellow man. Judge Westmoreland told him he could retire. IN GREAT SHAPE.

It is undoubtedly true that the footballists are putting in some hard work despite the recent had weather and will be in fine trim when the game is called. An efficient coach puts in a couple of hours' work on them every day, and they are rapidly getting into tip-top form. On the other hand the boys from the Forest City will come in great shape for the game. ### Application for Removal of Charter

STATE OF GEORGIA, COUNTY OF FULTON.—To the Surfier Court of Said County: The petition of the Atlanta Compress and Warehousing Company, a corporation organized under the laws of Georgia, respectfully shows that its charter was granted by the superior court of Fulton county on the 31st day of Marca, 1874, for a period of twenty years, with privilege of renewal at the end and expiration of said term. Said charter was granted to the Atlanta Steam Cotton Compress Company, with an authorized capital stock of \$100,000, to be divided into shares of \$100 each, and with all the powers, rights, privileges and immunities usual in such corporations, and included therein was the power to purchase and hold real and personal property, to sue and be sued, to sell, mortgage and otherwise encumber its property, to compress cotton, to provide for its transportation, and to exercise all and singular the rights and privileges of warehousemen. The principal office of the corporation was located in Atlanta, Fulton county, Ga. Said charter appears of record on the minutes of the superior court of said county, and leave of reference thereto is asked for. Said charter was accepted, the required amount of stock was subscribed, a regular organization was perfected and the company proceeded to transact business thereunder, and has so continued up to this date.

Petitioner further shows that on the 16th day of May, 1887, an amendment to its said charter was granted by the superior court of Fulton county, Georgia, the same having been duly and legally applied for and the application having been filed and published in pursuance of the statute in such case made and provided.

By said amendments, which appear of record on the minutes of said superior court, to which reference is asked, the name of said corporation was changed from the Atlanta Steam Compress Company to the Atlanta Compress and Warehousing Company, the increase of the capital stock to the sum of \$500,000 was authorized and additional powers to enlarge the scope, the business and t

of said company were authorized and granted. Which said amendments to said charter were duly accepted by said corporation, acting by and through its stockholders in regular convention assembled, and various and sundry acts were had and taken and its general business continued by said corporation under and by virtue of its charter and amendments thereto, as will appear by its minutes of proceedings, and its said business is still continued.

Petitioner, acting on its said privileges

Petitioner, acting on its said privileges of renewal, comes now and asks for renewal of its charter for another period of twenty years, to commence on the 31st day of March, 184, and that in the renewal and incorporation for said period, all the rights, powers, privileges and immunities here tofore granted in its original and amended charter and all its liability—may be confirmed to it and extend in all and every respect as completely as they have been and are now enjoyed, and that the present status of its stockholders, together with all their holdings, rights and liabilities as stockholders may be continued.

Petitioner now files this petition according to the statute, and then prays for a proper judgment and order of the court granting this petition—and renewing said charter as prayed for wife privileges of renewal after the expiration of the said term for another period of twenty years.

And petitioner prays for such other and further order as to the court may seem fit and proper in the premises.

### NOW FOR A CHURCH.

What Has Been Accomplished by a Little Mission.

IT IS LOCATED NEAR INMAN PARK

Was Started Four Years Ago-Its Wonderful and Successful Career-A New Building Needed.

About two miles from the passenger de-pot, and occupying a slight knoll which overlooks the Georgia railroad, near Inman Park, is a building which was formerly oc cupied as a grocery store but which, for the last four years, has been used for a Sab-bath school. The growth of this little mission makes

an interesting story, especially in view of the fact that a movement has already been naugurated to build a church in that lo-

The name of the mission, which is a tranch of the Central Presbyterian church of this city, is the Edgewood mission.

In spite of great difficulties in the way, which appeared to be insuperable, the workers in the little mission have fought against discouragement, and, working hand in hand, in the most delightful harmony, they have achieved a result which falls but little short of a miracle.

How It Was Organized. The school was organized on the 1st of

March, 1890, just four years ago.

It was organized by the members of Mrs.
R. A. Anderson's class in the Sunday school of the Central Presbyterian church. This was composed of four young men, who had been identified with the class from early

On account of the inability of Mrs. Anderson to carry on her work in the Sab-bath school and realizing that all of the boys whom she had taught for so many years were at last grown, it was proposed that a mission school under the direction of the class, be organized.

The proposition was maturely considered and finally a resolution was made which carried out the original suggestion. Having decided upon a mission school as a substi-tute for the class meetings, the next thing was to determine upon a field.

After a careful review of the situation, which entailed a number of visits into the various portions of the city, it was decided that Reynoldstown, as the locality was then known, offered the best inducement to a Sabbath school.

In a Grocery Store. The members of the class, forming them-

selves into a committee, together with their teacher, undertook a thorough canvass of all that section of the city.

In this way the co-operation of enough people residing in that neighborhood was obtained to warrant the rental of a build-

ing in which to hold the school. This was the first impediment in the

This was the first impediment in the way. For nearly two weeks an effort was made to procure a suitable building and it began to look gloomy for the mission. At last a little store overlooking the Georgia railroad, which had recently been vacated and was full of plunder, was called to the attention of the committee.

It was just the place, and with a little improvement could be made to answer all of the purposes of a mission school. There was a little room adjacent belonging to the same property, which could be utnized as a classroom. The owner of the building was seen by the committee and fair terms agreed upon by which the storehouse and the little room adjacent were secured.

When the time came for holding the first meeting there were present about seventy-five rosy young faces, all full of life and agerness. Mr. Carl harmsen, who has since crossed over the river, was present and made a beautiful talk, together with Professor Lumpkin, Mr. John A. Barry, Mr. W. F. Parkhurst, Dr. G. B. Strickler and several others.

The meeting was one of great encourage-

several others.

The meeting was one of great encouragement and every one was satisfied with the

Progress of the School. Mr. Robert E. Rushton was elected super-intendent and a number of excellent teachers were gathered around him, all of whom volunteered their services with enthusiasm. It was agreed, providence permitting, that they would be on hand every Sabbath and thus set a good example to their classes. This determination was faithfully carried This determination was faithfully carried out and the result was a remarkable growth for the Sunday school. It may be observed, in this connection, that out of several missions started in the same neighborhood, all of them, with the exception of the Edgewood mission, failed to acquire popularity or to result in the establishment of anything permanent in the way of a school. At the end of the first year the attendance of the surprised was the stabilishment of the second of the surprised was the surprised with the surprised was the surprised was the surprised was the surprised with the surprised was t

At the end of the first year the attendance of the school har climbed up to 110. The same scholars were on hand, in addition to a number of new ones, secured by a systematic plan of visiting among the neighborhood.

It was decided, in the course of a short, while, to begin a Sunday night service and also to have a weekly prayer meeting. All of these increased the popularity of the mission, and witnout apparent effort it seemed to grow, as with its own vitality. The attendance of the school has now reached 200 pupils. The building has been twice enlarged and the growth of the enterprise has been steady, uniform and permanent.

Now a Church Is Wanted.

At last the school has grown to such an extent that a church is wanted.

The situation is very near the center of development in that portion of the city and everything points to a successful career for The present building is altogether too small and new quarters are absolutely essential.

sential.

At a recent meeting of the teachers of the school it was decided to raise the sum of \$5,600.

A part of this is to be applied to the purchase of a lot on the edge of Inman Park and the other to the erection of a suitable building.

The movement is one that should meet with the symmathy of all Christian people

The movement is one that should meet with the sympathy of all Christian people throughout the city. Mr. Charles J. Dayton is the superintendent and Mr. John J. Eagan the assistant superintendent.

These gentlemen will be glad to answer any question in regard to the mission or receive any help that may be offered in that direction.
